

Bug & Usability Findings Log

Every row corresponds to a genuine observation. A **null** form-submission timestamp means the finding is recorded but has not yet been submitted to the Google Form.

ID	Scenario/Screen	Checklist ID(s)	Type	Description	Steps/Heuristic	Expected result	Actual result	Severity	Suggested fix	Screensh ref
D-BUG-001	D1 - Create Support Request	GUI-003	Visual layout	Labels and fields are vertically cramped.	Open D1 and inspect the label/input alignment.	Labels and fields have clear, consistent spacing.	Input fields sit directly below their labels.	Low	Apply consistent vertical spacing between labels and controls.	Evidence
D-BUG-002	D1 - Create Support Request	GUI-008	Usability	The Request type dropdown icon lacks a tooltip.	Open D1, then hover or focus the dropdown icon.	The icon has a visible label or tooltip.	No label or tooltip is displayed.	Low	Add an accessible name and hover/focus tooltip.	Evidence
D-BUG-003	D1 - Create Support Request	GUI-020	Usability	The attachment preview cannot show the full image.	Select a valid image, then inspect or open its preview.	The complete image can be inspected before submission.	Only a cropped thumbnail is shown with no full-size view.	Low	Use a contained thumbnail and provide a full-size preview.	Evidence
D-BUG-004	D1 - Create Support Request	GUI-027	Functional/usability	Unsaved request data is lost after Back/Return.	Enter request data, navigate back, then reopen D1.	Data is retained or a discard warning is shown.	The entered data is cleared without warning.	Medium	Preserve a draft or confirm before discarding changes.	Evidence
D-BUG-005	D1 - Create Support Request	GUI-031	Usability	A selected attachment cannot be dragged or reordered.	Add an image, then try to drag or reorder it.	A visible drag handle allows reordering.	No usable drag handle is available and dragging does not reorder the image.	Low	Add a visible drag handle and accessible reorder controls.	Evidence
D-BUG-006	D1 - Create Support Request	GUI-051	Accessibility/usability	The file uploader has no visible keyboard focus.	Use Tab to move focus to the uploader.	A visible focus border identifies the focused control.	The uploader shows no visible focus border.	Medium	Add a clear :focus-visible outline.	Evidence
D-BUG-007	D3 - Support Requests List	GUI-002	Visual consistency	Date labels use inconsistent emphasis.	Open D3 and compare Category, From date, and To date labels.	All filter labels use consistent visual emphasis.	From date and To date use a lighter weight than Category.	Low	Apply the same label typography to every filter control.	Evidence
D-BUG-008	D4 - Request Detail	GUI-027	Functional/usability	Unsaved response text is lost after Back/Return.	Enter response text, navigate away, then return to D4.	Text is retained or a discard warning is shown.	The response text is cleared without warning.	Medium	Preserve the response draft or confirm before discarding it.	Evidence

ID	Scenario/Screen	Checklist ID(s)	Type	Description	Steps/Heuristic	Expected result	Actual result	Severity	Suggested fix	Screensh ref
T3- BUG- 001	Task 3 - D3/D4, Android Chrome Phone	Compatibility	Responsive layout	The admin interface overflows horizontally and hides the Collapse control.	Open D3 and D4 on an Android Chrome phone and locate the sidebar Collapse control.	The interface fits the phone viewport and Collapse is reachable without horizontal scrolling.	Horizontal scrolling is required to reach the Collapse control on both screens.	Medium	Make the admin sidebar responsive, prevent page-level horizontal overflow, and keep Collapse within the viewport.	D3 evidence ; D4 evidence

Reconciliation

- Unique findings in this file: 9.
- Google Form submissions: 8.
- Task 1 findings: 8.
- Task 3 findings: 1 (covering 2 failed compatibility executions).
- Counts reconciled on: 2026-08-04.
