FACULTY OF INFORMATION TECHNOLOGY

HW03 – GUI & Usability Testing on EMS (Event Management System)

1. Student information

Field	Value
Student name	Nguyen An Nghiep
Student ID	23127234
Class / Cohort	Software Testing - 23KTPM1
Assignment date	3/8/2026
System under test	https://prod-dev.ems-fitus.cloud/login

2. Scope and rationale

2.1 Chosen scenario

Scenario D - User requests Support and Admin resolves it.

2.2 Primary screens

Code	Screen	Rationale
D1	User - Create Support Request with image attachment	Exercises labels, required fields, validation, upload feedback, form persistence, keyboard access, and submission feedback.
D3	Admin - Support Requests list	Exercises Pending/Resolved tabs, search, filters, loading/empty states, pagination, status colours, and navigation.
D4	Admin - Request detail	Exercises deep links, image lightbox, internal notes, official responses, resolution state, confirmations, and success/error feedback.

D2 - User My Support requests/detail is used as a supporting screen to verify that the **RESOLVED** status and official response created on D4 are visible to the request owner.

The selection avoids duplicating the group members' Scenario A and B packages and creates a repeatable end-to-end support lifecycle using data created by the tester.

2.3 Test accounts and environment

Purpose	Account identifier	Role	Environment
Create and verify the request	23127234@student.hcmus.edu.vn	STUDENT	EMS prod-dev environment; Windows 11; Microsoft Edge; desktop; tested 03/08/2026
Search and resolve the request	admin@gmail.com	ADMIN	EMS prod-dev environment; Windows 11; Microsoft Edge; desktop; tested 03/08/2026
Report Bug for school	nanghiep23@clc.fitus.edu.vn		https://docs.google.com/forms/d/e/1FAIpQLSei_y_1xriAvPMJ_V0iMzanXmPTGxphGbzMz6xOmEOgttMRg/vipli=1

2.4 Documented functional oracle

The student manual is used only to establish expected Support behaviour. Passed/Failed results still come from direct observation of the live SUT.

Screen	Documented expectation
D1	Category is one of SUPPORT, COMPLAINT, CONTACT, or OTHER. A request includes Title and Description and may include up to five images, each no larger than 5 MB. After successful submission, it appears in My Support requests with status PENDING.
D2	The student can search personal requests by Title or Description, filter by All statuses/PENDING/RESOLVED, open the request detail, view attachments, and read the official Admin response. A new issue is submitted as a new request rather than editing a resolved one.
D3/D4	The assignment defines Pending/Resolved administration, search, request detail, image lightbox, internal note, and official response. The current lifecycle uses PENDING and RESOLVED; APPROVED/REJECTED may occur only in legacy data.

3. Test approach

- Shared checklist: [EMS GUI Checklist](#).
- Base browser and OS for Task 1: Microsoft Edge and Window OS.
- Evidence directory: [images/task1b/](#).
- Result values: [Passed](#), [Failed](#), or [N/A](#) with a mandatory applicability reason.

4. Task 1B - GUI checklist execution

4.1 Execution matrix

You can see full description in EMS_GUI_Checklist_reviewed.md in Appendix B

Item ID	Short description	D1 Result	D1 Notes/evidence	D3 Result	D3 Notes/evidence	D4 Result	D4 Notes/evidence
GUI-001	Consistent font family	Passed		Passed		Passed	
GUI-002	Consistent primary-action colour	Passed		Failed	Date labels use lighter emphasis than the Category label. Evidence	Passed	
GUI-003	Alignment; no overlap or clipping	Failed	Input fields sit directly below their labels, causing cramped alignment. Evidence	Passed		Passed	
GUI-004	Complete EN/VI translation	Passed		Passed		Passed	
GUI-005	Explicit empty state	Passed		Passed		Passed	
GUI-006	Loading indicator	N/A	N/A	Passed		Passed	
GUI-007	Legible text contrast	Passed		Passed		Passed	
GUI-008	Labels/tooltips for icon controls	Failed	The Request type dropdown icon has no label or tooltip. Evidence	Passed		Passed	

Item ID	Short description	D1 Result	D1 Notes/evidence	D3 Result	D3 Notes/evidence	D4 Result	D4 Notes/evidence
GUI-009	Consistent date/time format	N/A	N/A	Passed		Passed	
GUI-010	Consistent status badge colour	Passed		Passed		Passed	
GUI-011	Visible page title/header	Passed		Passed		Passed	
GUI-012	No placeholder/debug text	Passed		Passed		Passed	
GUI-013	Required-field indicators	Passed		N/A	N/A	N/A	N/A
GUI-014	Persistent associated labels	Passed		Passed		Passed	
GUI-015	Error beside relevant field	Passed		N/A	N/A	N/A	N/A
GUI-016	Specific corrective error message	Passed		N/A	N/A	N/A	N/A
GUI-017	Empty required submission blocked	Passed		N/A	N/A	N/A	N/A
GUI-018	Invalid end-before-start rejected	N/A	N/A	N/A	N/A	N/A	N/A
GUI-019	Upload type/size declared	Passed		N/A	N/A	N/A	N/A
GUI-020	Image preview before submission	Failed	The selected image preview cannot be viewed at full size. Evidence	N/A	N/A	Passed	
GUI-021	Image aspect ratio enforced/warned	N/A	N/A	N/A	N/A	N/A	N/A
GUI-022	Rich-text toolbar state feedback	N/A	N/A	N/A	N/A	N/A	N/A
GUI-023	Data retained after failed submit	Passed		N/A	N/A	N/A	N/A
GUI-024	Disabled submit visually distinct	Passed		N/A	N/A	N/A	N/A
GUI-025	Active sidebar/menu indication	Passed	Passed	Passed		Passed	
GUI-026	Accurate breadcrumb	Passed		Passed		Passed	
GUI-027	Back/Return without unintended loss	Failed	Entered request data is lost after Back/Return. Evidence	Passed		Failed	Response text is lost after Back/Return. Evidence
GUI-028	Selected tab distinguished	Passed		Passed		Passed	
GUI-029	Tab content fully replaced	Passed		Passed	Passed	Passed	
GUI-030	Exact record opens from deep link	Passed		Passed		Passed	
GUI-031	Visible drag handle	Failed	The selected attachment cannot be dragged or reordered. Evidence	N/A	N/A	N/A	N/A
GUI-032	Reorder persists after refresh	N/A	N/A	N/A	N/A	N/A	N/A
GUI-033	Search available on list screen	N/A	N/A	Passed		N/A	N/A

Item ID	Short description	D1 Result	D1 Notes/evidence	D3 Result	D3 Notes/evidence	D4 Result	D4 Notes/evidence
GUI-034	Search and filters clearly separated	N/A	N/A	Passed		N/A	N/A
GUI-035	Unsaved-change warning	N/A	N/A	N/A	N/A	N/A	N/A
GUI-036	Pagination/current totals visible	N/A	N/A	Passed		N/A	N/A
GUI-037	Success feedback	N/A	N/A	N/A	N/A	Passed	
GUI-038	Failure feedback	N/A	N/A	N/A	N/A	Passed	
GUI-039	Destructive-action confirmation	N/A	N/A	N/A	N/A	N/A	N/A
GUI-040	Confirmation names action/target	N/A	N/A	N/A	N/A	N/A	N/A
GUI-041	Notification badge updates	N/A	N/A	Passed		Passed	
GUI-042	Progress percentage is accurate	N/A	N/A	N/A	N/A	N/A	N/A
GUI-043	Status colour consistent across screens	Passed		Passed		Passed	
GUI-044	Real-time logs update without refresh	N/A	N/A	N/A	N/A	Passed	
GUI-045	Current record state always visible	Passed	Passed	Passed		N/A	N/A
GUI-046	Administrative action creates audit entry	Passed		N/A	N/A	Passed	
GUI-047	Export/download feedback	N/A	N/A	Passed		N/A	N/A
GUI-048	Async button blocks duplicate submission	Passed		N/A	N/A	Passed	
GUI-049	Consistent body-text colour hierarchy	Passed		Passed		Passed	
GUI-050	Accessible interactive date/time picker	N/A	N/A	Passed		N/A	N/A
GUI-051	Tab/Enter navigation without trap	Failed	The file uploader has no visible focus border during keyboard navigation. Evidence	Passed		Passed	

4.2 Execution totals

Screen	Passed	Failed	N/A	Total
D1	26	6	19	51
D3	28	1	22	51
D4	28	1	22	51
Total	82	8	63	153

4.3 Detailed defect reports

Finding D-BUG-001 - Cramped label/input alignment

- Finding ID: D-BUG-001
- Screen: D1 - Create Support Request
- Related checklist item(s): GUI-003
- Type: Visual layout
- Preconditions: Signed in as a user with the D1 form open.
- Steps to reproduce:
 - Open Create Support Request.

2. Inspect the labels and input fields.

- Expected result: Labels and fields have clear, consistent spacing and alignment.
- Actual result: Input fields sit directly below their labels, making the layout look cramped.
- Severity: Low
- Suggested fix: Apply consistent vertical spacing between labels and controls.
- Screenshot:

Create support request

Describe the issue clearly so the support team can help you.

Request type*

For example: Support

Issue requiring support*

For example: Unable to register for an event

- Google Form submission timestamp: 11:31 AM - 4/8/2026

Finding D-BUG-002 - Dropdown icon lacks a tooltip

- Finding ID: D-BUG-002
- Screen: D1 - Create Support Request
- Related checklist item(s): GUI-008
- Type: Usability
- Preconditions: Signed in as a user with the D1 form open.
- Steps to reproduce:
 1. Open Create Support Request.
 2. Hover or focus the Request type dropdown icon.
- Expected result: The icon has a visible label or tooltip.
- Actual result: The dropdown icon has no label or tooltip.
- Severity: Low
- Suggested fix: Add an accessible name and hover/focus tooltip.
- Screenshot:

Create support request

Describe the issue clearly so the support team can help you.

Request type*

For example: Support

- Google Form submission timestamp: 11:32 AM - 4/8/2026

Finding D-BUG-003 - Attachment preview cannot show the full image

- Finding ID: D-BUG-003
- Screen: D1 - Create Support Request
- Related checklist item(s): GUI-020
- Type: Usability
- Preconditions: Signed in as a user with the D1 form open and a valid image available.
- Steps to reproduce:
 1. Select a valid image in Attachments.
 2. Inspect or try to open the preview.
- Expected result: The full image can be inspected before submission.
- Actual result: Only a cropped thumbnail is shown, with no full-size preview.
- Severity: Low
- Suggested fix: Use a contained thumbnail and allow it to open in a full-size preview.

- Screenshot:

- Google Form submission timestamp: 11:34 AM - 4/8/2026

Finding D-BUG-004 - Request data is lost after Back/Return

- Finding ID: D-BUG-004
- Screen: D1 - Create Support Request
- Related checklist item(s): GUI-027
- Type: Functional/usability
- Preconditions: Signed in as a user with unsaved data entered on D1.
- Steps to reproduce:
 1. Enter data in the request form.
 2. Use Back/Return, then reopen the form.
- Expected result: The data is retained or a discard warning is shown.
- Actual result: The entered data is cleared without warning.
- Severity: Medium
- Suggested fix: Preserve a draft or show a confirmation before discarding changes.
- Screenshot:

- Google Form submission timestamp: 11:36 AM - 4/8/2026

Finding D-BUG-005 - Attachment cannot be dragged or reordered

- Finding ID: D-BUG-005
- Screen: D1 - Create Support Request

- Related checklist item(s): GUI-031
- Type: Usability
- Preconditions: Signed in as a user with an image selected on D1.
- Steps to reproduce:
 1. Add an image attachment.
 2. Try to drag or reorder the selected image.
- Expected result: A visible drag handle allows the attachment to be reordered.
- Actual result: No usable drag handle is available and the image cannot be reordered.
- Severity: Low
- Suggested fix: Add a visible drag handle and accessible reorder controls.
- Screenshot:

fit@hcmus | **EVENT MANAGEMENT SYSTEM**
Faculty of Information technology

Detailed description*

For example: I tried to register for Technology Day 2026 as a Participant. After selecting the role and clicking Register, the system displayed "Registration failed" and the event did not appear in my registered events.

- Google Form submission timestamp: 11:38 AM - 4/8/2026

Finding D-BUG-006 - File uploader has no visible keyboard focus

- Finding ID: D-BUG-006
- Screen: D1 - Create Support Request
- Related checklist item(s): GUI-051
- Type: Accessibility/usability
- Preconditions: Signed in as a user with the D1 form open.
- Steps to reproduce:
 1. Use Tab to move through the form controls.
 2. Move focus to the file uploader.

- Expected result: A visible focus border identifies the focused uploader.
- Actual result: The uploader shows no visible focus border.
- Severity: Medium
- Suggested fix: Add a clear `:focus-visible` outline to the uploader.
- Screenshot:

- Google Form submission timestamp: 11:39 AM - 4/8/2026

Finding D-BUG-007 - Date labels use inconsistent emphasis

- Finding ID: D-BUG-007
- Screen: D3 - Support Requests List
- Related checklist item(s): GUI-002
- Type: Visual consistency
- Preconditions: Signed in as an administrator with D3 open.
- Steps to reproduce:
 1. Open Support request management.
 2. Compare Category, From date, and To date labels.
- Expected result: Filter labels use consistent visual emphasis.
- Actual result: From date and To date use a lighter weight than Category.
- Severity: Low
- Suggested fix: Apply the same label typography to all filter controls.
- Screenshot:

- Google Form submission timestamp: 11:40 AM - 4/8/2026

Finding D-BUG-008 - Response text is lost after Back/Return

- Finding ID: D-BUG-008
- Screen: D4 - Request Detail
- Related checklist item(s): GUI-027
- Type: Functional/usability
- Preconditions: Signed in as an administrator with unsaved response text on D4.
- Steps to reproduce:
 1. Enter text in Response content.
 2. Navigate away, return to the request, and inspect the field.
- Expected result: The text is retained or a discard warning is shown.
- Actual result: The response text is cleared without warning.
- Severity: Medium
- Suggested fix: Preserve the response draft or confirm before discarding it.

- Screenshot:

- Google Form submission timestamp: 1:41 AM - 4/8/2026

5. Task 2 - Five-user usability study

Task 2 was not performed. No participant identities, contacts, observations, recordings, task-success values, timings, errors, hesitation counts, SUS/UEQ-S responses, or usability-study findings were fabricated. Self-assessed score: 0/25.

6. Task 3 - Cross-browser and cross-platform testing

6.1 Method

- Email overlay: 23127234@student.hcmus.edu.vn.
- Evidence directory: images/task3/.

6.2 D1 - Create Support Request

ID	OS	Browser	Device class	Result	Note/Defect ID	Screenshot
01	Windows	Chrome	Desktop	Passed		images/task3/Windows_Chrome_Desktop_D1.png
02	Windows	Edge	Desktop	Passed		images/task3/Windows_Edge_Desktop_D1.png
03	Windows	Firefox	Desktop	Passed		images/task3/Windows_Firefox_Desktop_D1.png
04	Windows	Opera	Desktop	Passed		images/task3/Windows_Opera_Desktop_D1.png
05	iOS	Safari	Phone	Passed		images/task3/iOS_Safari_Phone_D1.jpg
06	Android	Chrome	Phone	Passed		images/task3/Android_Chrome_Phone_D1.png
07	Android	Firefox	Tablet	Passed		images/task3/Android_Firefox_Tablet_D1.png

6.3 D3 - Support Requests List

ID	OS	Browser	Device class	Result	Note/Defect ID	Screenshot
01	Windows	Chrome	Desktop	Passed		images/task3/Windows_Chrome_Desktop_D3.png
02	Windows	Edge	Desktop	Passed		images/task3/Windows_Edge_Desktop_D3.png
03	Windows	Firefox	Desktop	Passed		images/task3/Windows_Firefox_Desktop_D3.png

ID	OS	Browser	Device class	Result	Note/Defect ID	Screenshot
04	Windows	Opera	Desktop	Passed		images/task3/Windows_Opera_Desktop_D3.png
05	iOS	Safari	Phone	Passed		images/task3/iOS_Safari_Phone_D3.jpg
06	Android	Chrome	Phone	Failed	Break UI (must scroll to see button Collapse)	images/task3/Android_Chrome_Phone_D3.png
07	Android	Firefox	Tablet	Passed		images/task3/Android_Firefox_Tablet_D3.png

6.4 D4 - Request Detail and Resolution

ID	OS	Browser	Device class	Result	Note/Defect ID	Screenshot
01	Windows	Chrome	Desktop	Passed		images/task3/Windows_Chrome_Desktop_D4.png
02	Windows	Edge	Desktop	Passed		images/task3/Windows_Edge_Desktop_D4.png
03	Windows	Firefox	Desktop	Passed		images/task3/Windows_Firefox_Desktop_D4.png
04	Windows	Opera	Desktop	Passed		images/task3/Windows_Opera_Desktop_D4.png
05	iOS	Safari	Phone	Passed		images/task3/iOS_Safari_Phone_D4.jpg
06	Android	Chrome	Phone	Failed	Break UI (must scroll to see button Collapse)	images/task3/Android_Chrome_Phone_D4.png
07	Android	Firefox	Tablet	Passed		images/task3/Android_Firefox_Tablet_D4.png

6.5 Compatibility summary

Metric	Value
Planned cells	21
Executed cells	21
Passed	19
Failed	2
Unique compatibility findings	1

7. Bug and usability findings reconciliation

- Aggregated log: [Bug & Usability Findings Log](#).

8. Agent Skill

- Skill name: [ems-gui-test](#).
- Source: [SKILL.md](#).
- Purpose: Designs and executes reusable GUI checklist testing, heuristic evaluation, five-person usability testing, and cross-platform compatibility matrices for EMS screens and workflows. Use when the input contains an EMS flow description and related screenshots and Claude must generate a standards-based GUI checklist, plan or document real test execution across at least three screens, analyze genuine participant results, identify evidence-backed findings, or produce a compatibility report without inventing observations, users, metrics, or screenshots.
- Demonstration video: <https://youtu.be/kbvjK2NBPBA>.
