

Bug & Usability Findings Log

ID	Scenario/Screen	Type	Description	Steps	Severity	Suggested fix	Screenshot ref	Form-submission timestamp
001	A1, A2, A3	Bug	The date picker UI does not translate Vietnamese after toggling to Vietnamese	1. Set language as English and open a date picker popup. Notice the language in the calendar setting and the time setting. 2. Switch language to Vietnamese.	Low	Translates the calendar setting and time setting to Vietnamese after switching.	Screenshot 1 Screenshot 2 Screenshot 3	11:04 26/07/2026
002	A2	Bug	The hint of WYSIWYG text box remains in English after switching to Vietnamese	1. Go to the create event page. 2. Set the language as English and notice the hint of WYSIWYG text box. 3. Switch language to Vietnamese.	Low	Add a Vietnamese version of the hint	Screenshot	11:08 26/07/2026
003	A1	Bug	The filter (funnel) icon next to the 'EVENT TYPES' header acts as an icon-only control but lacks a descriptive tooltip or text label on hover to indicate its filtering function	1. Go to event list page. 2. Hover the mouse over the filter (funnel) icon.	Low	Add tooltip for filter icon	Screenshot 1 Screenshot 2	11:13 26/07/2026
004	A2	Bug	Other icon controls of the rich text box show, except for the text style(p, h1,	1. Go to create event page. 2. Scroll down to the rich text box.	Low	Add tooltips for these icons	Screenshot 1 Screenshot 2 Screenshot 3	11:19 26/07/2026

ID	Scenario/Screen	Type	Description	Steps	Severity	Suggested fix	Screenshot ref	Form-submission timestamp
			h2,...) icon, the color icon, the highlight icon, the alignment icon and the font size icon	3. Hover the text style icon, the color icon, the highlight icon, the alignment icon and the font size icon			Screenshot 4 Screenshot 5	
005	A2, A3	Bug	'Role Name' and 'Max Slots' are required but there are no indicators	1. Go to create event page or edit event page. 2. Scroll down to the 'Registration' section. 3. Enable 'Allow Student Registration'.	Medium	Add indicators like the asterisks next to the labels of these fields	Screenshot 1 Screenshot 2 Screenshot 3	11:22 26/07/2026
006	A1	Bug	The 'Time' filter allows an end date earlier than the start date and displays 'No events found matching your filters.' instead of showing an error or preventing the invalid selection.	1. Go to event list page. 2. Open the 'Time' filter dropdown. 3. Set the end date to be earlier than the start date.	Medium	Add a check before applying the filter	Screenshot 1 Screenshot 2	11:24 26/07/2026
007	A2	Bug	The form accepts image uploads that deviate from the recommended aspect ratios (4:3/24:9) without displaying any mismatch warning or error.	1. Go to create event page or edit event page. 2. Upload an image to the event thumbnail input field that does not match the recommended aspect ratio (4:3 / 24:9).	Low	Add a warning after the image is uploaded	Screenshot	11:26 26/07/2026
008	A2, A3	Bug	Navigating back to the event list	1. Go to event list page. 2. Apply	Medium	Store the state of the filtered event	Screenshot 1 Screenshot	11:31 26/07/2026

ID	Scenario/Screen	Type	Description	Steps	Severity	Suggested fix	Screenshot ref	Form-submission timestamp
			screen resets all previously applied column filters or the rows-per-page pagination selection	'Conferences & Seminars' for the 'EVENT TYPE' column filter. 3. Select '100' for 'Rows per page' 4. Go to create event page or edit event page. 5. Use the back button or sidebar menu to return to the event list.		list before navigating away	2 Screenshot 3 Screenshot 4	
009	A1	Bug	Filter icon controls do not have clear labels	1. Go to event list page. 2. Observe and hover the filter control for 'EVENT TYPE'.	Low	Add labels or tooltips for filter icon	Screenshot	11:32 26/07/2026
010	A2	Bug	If a user restores a draft and navigates away again without manually editing the text, the draft is permanently lost and the input field is empty upon return	1. Go to the create event page and type 'Hello world' to the 'Event title' field. 2. Hit the back button. 3. Go to the create event page again. 4. Click on the "Restore" option in the unfinished draft dialog. 5. Hit the back button to navigate away without manually editing the 'Event title' field. 6. Go to the	High	I think it's worth checking the state of the form after hitting restore button	Screenshot 1 Screenshot 2	11:35 26/07/2026

ID	Scenario/Screen	Type	Description	Steps	Severity	Suggested fix	Screenshot ref	Form-submission timestamp
				create event page again.				
011	A3	Bug	No discard prompt or draft-restore. Navigating away after making changes results in silent, permanent data loss	1. Go to create edit event page. 2. Scroll down to the Registration and modify role details. 3. Navigate away to another page using the sidebar or navigation menu without saving.	High	Add a warning before the user navigates away	Screenshot 1 Screenshot 2	11:39 26/07/2026
012	A2, A3	Bug	No notifications, navigate back to event list screen immediately after successful action	1. Go to create event page or edit event page. 2. Modify some fields and click the save/submit button.	Medium	Add some popups to notify when the action is successful	Screenshot 1 Screenshot 2 Screenshot 3 Screenshot 4 Screenshot 5	11:43 26/07/2026
013	A1	Bug	During connection loss, delete popup shows "Loading..." and reverts to "Confirm" after the request fails, but no error message or toast is displayed to the user	1. Go to event list page. 2. Trigger offline mode or simulate connection loss. 3. Click delete on an event. 4. Click the "Confirm" delete button in the confirmation modal.	Medium	A separate notification/popup indicates that the connection is loss	Screenshot 1 Screenshot 2	11:49 26/07/2026
014	A1	Bug	The 'Upcoming' status color is inconsistent. It is a blue segment on analytics	1. Go to event list page. 2. Locate the 'Upcoming' status badge. 3. Go to analytics	Low	Use the same color for all the screens where the same status appears	Screenshot 1 Screenshot 2	11:53 26/07/2026

ID	Scenario/Screen	Type	Description	Steps	Severity	Suggested fix	Screenshot ref	Form-submission timestamp
			overview screen, but displays as a purple badge on the event list.	overview screen and observe the 'Upcoming' status segment on the pie chart.				
015	A2, A3	Bug	The labels for toggle options use bolder color than the labels for other controls, despite being in the same hierarchy	1. Go to create event page or edit event page. 2. Compare the labels of toggle items (e.g., "Allow Student Registration") with normal field labels.	Low	Use the same color for all the input field labels	Screenshot 1 Screenshot 2	11:57 26/07/2026
016	A2, A3	Bug	When tabbing through fields with Tab key, date picker pop-ups do not close after losing focus. Multiple calendars remain open simultaneously, stacking on top of each other and blocking fields below.	1. Go to create event page or edit event page. 2. Focus on a date input field using keyboard tab navigation. 3. Tab to the next input field without selecting a date.	Medium	I think that we can add a runtime check to close these interfaces when the users press Tab key	Screenshot 1 Screenshot 2	12:03 26/07/2026
017	A1, A2, A3	Bug	Unresponsive, broken layout on mobile web view	1. Open EMS web on a mobile device (physical or emulator). 2. View the event list (A1), create event form (A2), and registration panel (A3).	Medium	Implement responsive layout for mobile web	Screenshot 1 Screenshot 2 Screenshot 3	16:34 26/07/2026
