SOFTWARE TESTING

HW03 – GUI & Usability Testing on EMS (Event Management System)

1. Student Information & General Information

- Name: Trần Trí Nhân
- Student ID: 23127097

Task 1B

- Scenario: Scenario A — Admin creates and manages events.
- Screens:
 - (A1) Events list with status filters and notification dots;
 - (A2) Add/Edit Event form — image upload + Rich-Text + date/time validation;
 - (A3) Registration & Roles configuration panel — Max Slots / Waitlist / additional role;
- Screen choice rationale: I choose these screens because they are the most important features for the event management functionality, usually overlooked, yet are still simple enough because they minimize the interactions between accounts with different roles(admin and user)

Checklist execution

Item ID	Item Description	IA Mapping	Heuristic/Principle Mapping	Result	Notes
GUI-001	All text on a page uses a consistent font family (no mixed/inconsistent fonts within one view)	IA-01	Nielsen: Consistency & Standards; Shneiderman: Strive for Consistency	A1: Passed; A2: Passed; A3: Passed	
GUI-002	Primary action buttons (e.g., Save, Publish, Register) use the same color across the app	IA-01	Nielsen: Consistency & Standards	A1: Passed; A2: Passed; A3: Passed	
GUI-003	Visible page elements are grid-aligned with no overlapping or clipped components	IA-01	Nielsen: Aesthetic & Minimalist Design; Norman: Constraints	A1: Passed; A2: Passed; A3: Passed	
GUI-004	Switching the language toggle (EN/VI) translates all visible text on the page with no leftover untranslated strings	IA-01	Nielsen: Match Between System & Real World	A1: Failed; A2: Failed; A3: Failed	A1, A2, A3: The date picker UI does not translate Vietnamese after toggling to Vietnamese (A1 , A2 , A3); A2: The hint of WYSIWYG text box remains in English after switching to Vietnamese (A2)
GUI-005	A screen with zero records shows an explicit empty-state message	IA-01	Nielsen: Help Users Recognize/Diagnose; Norman: Feedback	A1: Passed; A2: N/A; A3: N/A	
GUI-006	A screen fetching data shows a loading	IA-01	Nielsen: Visibility of System Status; Norman: Feedback	A1: Passed;	

Item ID	Item Description	IA Mapping	Heuristic/Principle Mapping	Result	Notes
	indicator (spinner/skeleton) before content renders			A2: N/A; A3: Passed	
GUI-007	Foreground text has sufficient contrast against its background to be legible	IA-01	Nielsen: Aesthetic & Minimalist Design	A1: Passed; A2: Passed; A3: Passed	
GUI-008	Every icon-only control has an accompanying text label or tooltip identifying its function	IA-01	Nielsen: Recognition Rather Than Recall	A1: Failed; A2: Failed; A3: N/A	A1: The filter (funnel) icon next to the 'EVENT TYPES' header acts as an icon-only control but lacks a descriptive tooltip or text label on hover to indicate its filtering function (A1 , A1); A2: Other icon controls of the rich text box show, except for the text style(p, h1, h2,...) icon, the color icon, the highlight icon, the alignment icon and the font size icon (A2 , A2 , A2 , A2 , A2)
GUI-009	Date/time values are displayed in one consistent format	IA-01	Nielsen: Consistency & Standards	A1: Passed; A2: Passed;	

Item ID	Item Description	IA Mapping	Heuristic/Principle Mapping	Result	Notes
	throughout a given page			A3: Passed	
GUI-010	The same status value (e.g., "Active," "Pending") uses the same badge color everywhere it appears	IA-01	Nielsen: Consistency & Standards; Norman: Mapping	A1: Passed; A2: N/A; A3: N/A	
GUI-011	Every page displays a title/header identifying its content	IA-01	Nielsen: Match Between System & Real World	A1: Passed; A2: Passed; A3: Passed	
GUI-012	No placeholder/debug text (e.g., "Lorem ipsum," "TODO") is visible anywhere in the UI	IA-01	Nielsen: Aesthetic & Minimalist Design	A1: Passed; A2: Passed; A3: Passed	
GUI-013	Every required form field displays a visible required-indicator (e.g., asterisk)	IA-02	Nielsen: Error Prevention; Shneiderman: Offer Simple Error Handling	A1: N/A; A2: Failed; A3: Failed	A2 & A3: 'Role Name' and 'Max Slots' are required but there are no indicators (A2 , A3 , A2)
GUI-014	A field's label stays visible/associated with its input after the user enters a value	IA-02	Nielsen: Recognition Rather Than Recall	A1: N/A; A2: Passed; A3: Passed	
GUI-015	A validation error message appears directly next to the specific field it concerns	IA-02	Nielsen: Help Users Recognize/Diagnose/Recover from Errors	A1: N/A; A2: Passed; A3: Passed	

Item ID	Item Description	IA Mapping	Heuristic/Principle Mapping	Result	Notes
GUI-016	A validation error message states what is wrong and how to correct it (not a generic "Invalid")	IA-02	Nielsen: Help Users Recognize/Diagnose/Recover from Errors	A1: N/A; A2: Passed; A3: Passed	
GUI-017	Submitting a form with an empty required field is blocked and shows an inline error instead of submitting	IA-02	Nielsen: Error Prevention	A1: N/A; A2: Passed; A3: Passed	
GUI-018	Selecting an event end date/time earlier than the start date/time is rejected with a clear error	IA-02	Nielsen: Error Prevention	A1: Failed; A2: Passed; A3: Passed	A1: The 'Time' filter allows an end date earlier than the start date and displays 'No events found matching your filters.' instead of showing an error or preventing the invalid selection. (A1, A1)
GUI-019	The accepted file type/size for an image upload is stated before the user selects a file	IA-02	Nielsen: Help & Documentation; Norman: Signifiers	A1: N/A; A2: Passed; A3: N/A	
GUI-020	Selecting an image for upload shows a visual preview before the form is submitted	IA-02	Norman: Feedback	A1: N/A; A2: Passed; A3: N/A	
GUI-021	The declared image aspect ratio (4:3	IA-02	Nielsen: Error Prevention	A1: N/A;	A2: The form accepts image

Item ID	Item Description	IA Mapping	Heuristic/Principle Mapping	Result	Notes
	thumbnail / 24:9 banner) is enforced or a mismatch warning is shown			A2: Failed; A3: N/A	uploads that deviate from the recommended aspect ratios (4:3/24:9) without displaying any mismatch warning or error. (A2)
GUI-022	The Rich-Text editor toolbar visually reflects the formatting state (e.g., Bold icon highlighted) at the cursor position	IA-02	Norman: Feedback; Nielsen: Visibility of System Status	A1: N/A; A2: Passed; A3: N/A	
GUI-023	Data entered in a form is retained (not cleared) after a failed submission	IA-02	Nielsen: User Control & Freedom	A1: N/A; A2: Passed; A3: Passed	
GUI-024	A disabled submit button is visually distinct from an enabled submit button	IA-02	Norman: Constraints/Signifiers	A1: N/A; A2: N/A; A3: N/A	
GUI-025	The sidebar/menu item for the current section is visually highlighted as active	IA-03	Nielsen: Visibility of System Status	A1: Passed; A2: Passed; A3: Passed	
GUI-026	The breadcrumb trail (where present) accurately reflects the current page's position in the hierarchy	IA-03	Nielsen: Match Between System & Real World	A1: N/A; A2: N/A; A3: N/A	

Item ID	Item Description	IA Mapping	Heuristic/Principle Mapping	Result	Notes
GUI-027	Using the Back/Return action returns the user to the previous screen with no unintended data loss	IA-03	Nielsen: User Control & Freedom; Shneiderman: Support Internal Locus of Control	A1: Passed; A2: Failed; A3: Failed	A2 & A3: Navigating back to the event list screen resets all previously applied column filters or the rows-per-page pagination selection (A2/A3 , A2/A3 , A2/A3 , A2/A3)
GUI-028	The currently selected tab (e.g., Pending/Resolved) is visually distinguished from unselected tabs	IA-03	Nielsen: Visibility of System Status	A1: N/A; A2: N/A; A3: N/A	
GUI-029	Switching tabs replaces the content area fully, with no residual content from the previous tab	IA-03	Nielsen: Consistency & Standards	A1: N/A; A2: N/A; A3: N/A	
GUI-030	Opening a direct URL (deep link) to a detail record loads that exact record's data	IA-03	Nielsen: Match Between System & Real World	A1: N/A; A2: N/A; A3: Passed	
GUI-031	A drag-and-drop reorder handle is visually distinguishable from non-draggable elements	IA-03	Norman: Affordance/Signifiers	A1: N/A; A2: N/A; A3: N/A	
GUI-032	A drag-and-drop reorder change persists after the page is refreshed	IA-03	Nielsen: User Control & Freedom	A1: N/A; A2: N/A;	

Item ID	Item Description	IA Mapping	Heuristic/Principle Mapping	Result	Notes
				A3: N/A	
GUI-033	The search input is reachable from the listing screen without an extra navigation step	IA-03	Shneiderman: Enable Frequent Users to Use Shortcuts	A1: Passed; A2: N/A; A3: N/A	
GUI-034	Filter controls are visually separated from and clearly labeled apart from search controls	IA-03	Nielsen: Recognition Rather Than Recall	A1: Failed; A2: N/A; A3: N/A	A1: Filter icon controls do not have clear labels (A1)
GUI-035	Navigating away from an in-progress unsaved form triggers a confirm-discard prompt	IA-03	Nielsen: Error Prevention; Shneiderman: Permit Easy Reversal of Actions	A1: N/A; A2: Failed; A3: Failed	A2: If a user restores a draft and navigates away again without manually editing the text, the draft is permanently lost and the input field is empty upon return (A2 , A2); A3: No discard prompt or draft-restore. Navigating away after making changes results in silent, permanent data loss (A3 , A3)
GUI-036	Pagination controls display the current page number and total pages/records	IA-03	Nielsen: Visibility of System Status	A1: Passed; A2: N/A;	

Item ID	Item Description	IA Mapping	Heuristic/Principle Mapping	Result	Notes
				A3: N/A	
GUI-037	A successful action (e.g., save, publish, register) triggers a confirming toast/notification	IA-04	Nielsen: Visibility of System Status; Shneiderman: Offer Informative Feedback	A1: N/A; A2: Failed; A3: Failed	A2 & A3: No notifications, navigate back to event list screen immediately after successful action (A2 , A2 , A2 , A3 , A3)
GUI-038	A failed action triggers a toast/notification clearly stating the failure	IA-04	Nielsen: Help Users Recognize/Diagnose/Recover from Errors	A1: Failed; A2: Passed; A3: Passed	A1: During connection loss, delete popup shows "Loading..." and reverts to "Confirm" after the request fails, but no error message or toast is displayed to the user (A1 , A1)
GUI-039	A destructive action (e.g., Delete, Block) requires confirmation via a dialog before executing	IA-04	Nielsen: Error Prevention; Shneiderman: Permit Easy Reversal of Actions	A1: Passed; A2: N/A; A3: N/A	
GUI-040	The confirmation dialog names the specific action and target it is confirming	IA-04	Nielsen: Recognition Rather Than Recall	A1: Passed; A2: N/A; A3: N/A	
GUI-041	A notification dot/badge count updates immediately	IA-04	Nielsen: Visibility of System Status	A1: Passed; A2: Passed;	

Item ID	Item Description	IA Mapping	Heuristic/Principle Mapping	Result	Notes
	after its triggering event occurs			A3: Passed	
GUI-042	A progress bar's displayed percentage matches the actual numeric ratio it represents (e.g., slots filled)	IA-04	Norman: Feedback	A1: N/A; A2: N/A; A3: N/A	
GUI-043	The same status value uses the same color coding consistently on every screen it appears	IA-04	Nielsen: Consistency & Standards	A1: Failed; A2: N/A; A3: N/A	A1: The 'Upcoming' status color is inconsistent. It is a blue segment on analytics overview screen, but displays as a purple badge on the event list. (A1, A1)
GUI-044	New real-time log entries (e.g., check-in log) appear without requiring a manual page refresh	IA-04	Nielsen: Visibility of System Status	A1: N/A; A2: N/A; A3: N/A	
GUI-045	The current system state of a record (e.g., Draft/Published) is visibly indicated at all times on its screen	IA-04	Nielsen: Visibility of System Status	A1: Passed; A2: N/A; A3: N/A	
GUI-046	An administrative action (role change, password reset) produces a visible audit-log entry	IA-04	Nielsen: Visibility of System Status; Shneiderman: Design Dialogs to Yield Closure	A1: N/A; A2: N/A; A3: N/A	
GUI-047	Triggering an Export action shows visible	IA-04	Shneiderman: Offer Informative Feedback	A1: N/A;	

Item ID	Item Description	IA Mapping	Heuristic/Principle Mapping	Result	Notes
	feedback that the file is being generated/downloaded			A2: N/A; A3: N/A	
GUI-048	A button shows a temporary disabled/loading state during async processing to prevent duplicate submissions	IA-04	Nielsen: Error Prevention	A1: Passed; A2: Passed; A3: Passed	
GUI-049	Body text on the same page with the same hierarchy have the same color	IA-01	Nielsen Consistency & standards; Norman Consistency; Shneiderman Strive for consistency	A1: Passed; A2: Failed; A3: Failed	A2 & A3: The labels for toggle options use bolder color than the labels for other controls, despite being in the same hierarchy (A2/A3, A2/A3)
GUI-050	Date/time input fields display an accessible interactive calendar pop-up, allowing direct date/time selection, highlighting weekend, current/selected dates	IA-02	Nielsen Recognition rather than recall, Nielsen Error Prevention.	A1: Passed; A2: Passed; A3: Passed	
GUI-051	Users can use the Tab key to sequentially move the focus through the items on the navigation bar (menu/sidebar) and use the Enter key to access them without being trapped (keyboard trap).	IA-03	Nielsen Flexibility and efficiency of use	A1: Passed; A2: Failed; A3: Failed	A2 & A3: When tabbing through fields with Tab key, date picker pop-ups do not close after losing focus. Multiple calendars remain open simultaneously, stacking on top of each other

Item ID	Item Description	IA Mapping	Heuristic/Principle Mapping	Result	Notes
					and blocking fields below. (A3, A2)

Bug report

Bug: The date picker UI does not translate Vietnamese after toggling to Vietnamese

- Screens: A1, A2, A3
- Steps:
 - Set language as English and open a date picker popup. Notice the language in the calendar setting and the time setting.
 - Switch language to Vietnamese.
- Expected result: Calendar and time setting change to Vietnamese.
- Actual result: Calendar and time setting stay as English.
- Severity: Low
- Screenshots:

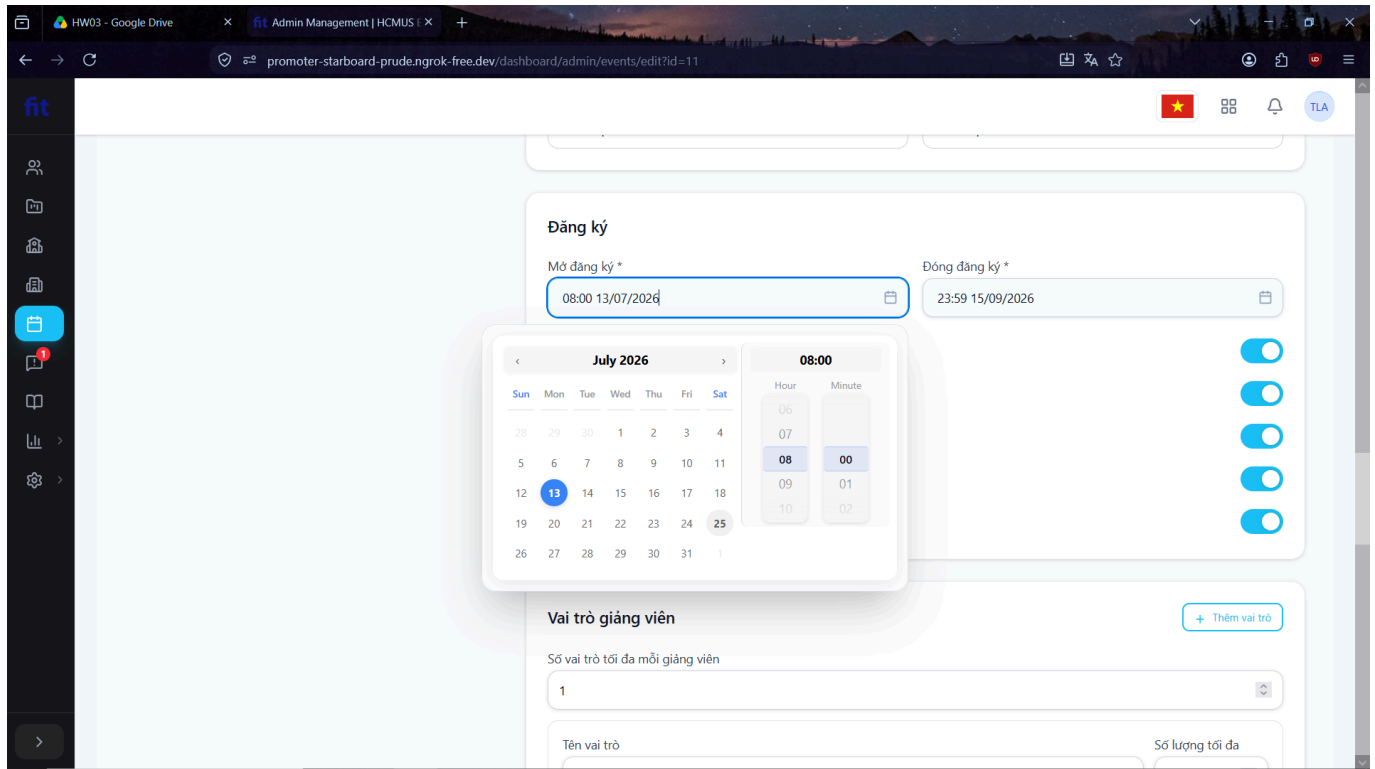

The image displays two screenshots of a web application interface for event management, accessed via a browser at the URL `promoter-starboard-prude.ngrok-free.dev/dashboard/admin/events`.

Top Screenshot: Sự kiện (Event List)

The page title is "Sự kiện". It features a search bar "Tìm kiếm sự kiện...", filter buttons "Tất cả trạng thái" and "Tất cả thời gian", and a "+ Thêm sự kiện" button. The main content is a table with columns: SỰ KIỆN, LOẠI SỰ KIỆN, THỜI GIAN, ĐĂNG KÝ, CHECK-IN, LOẠI, CÔNG KHAI, and HÀNH ĐỘNG. A calendar overlay is visible, showing the month of July 2026, with the date 25 selected. The time 14:48 is also displayed.

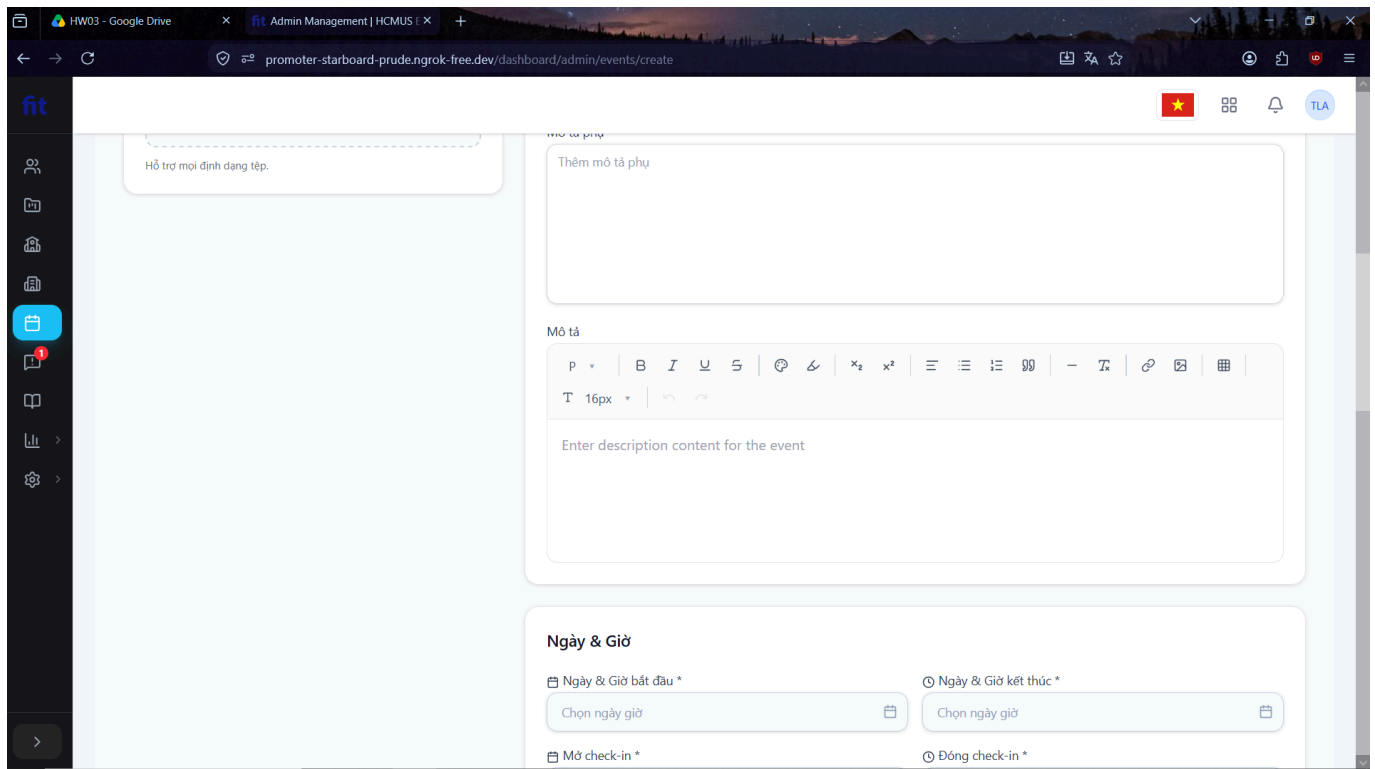

Bottom Screenshot: Create Event Form

The page title is "Admin Management | HCMUS". The form is titled "Ngày & Giờ" (Date & Time). It includes fields for "Ngày & Giờ bắt đầu *" (Start Date & Time), "Ngày & Giờ kết thúc *" (End Date & Time), and "Đóng check-in *" (Check-in Close). A calendar overlay is visible, showing the month of July 2026, with the date 25 selected. The time 20:28 is also displayed. Below the date and time fields, there is a "Đăng ký" (Registration) section with fields for "Mở đăng ký *" (Open Registration) and "Đóng đăng ký *" (Close Registration). The "Năm học" (Academic Year) field is also present, with a dropdown menu.

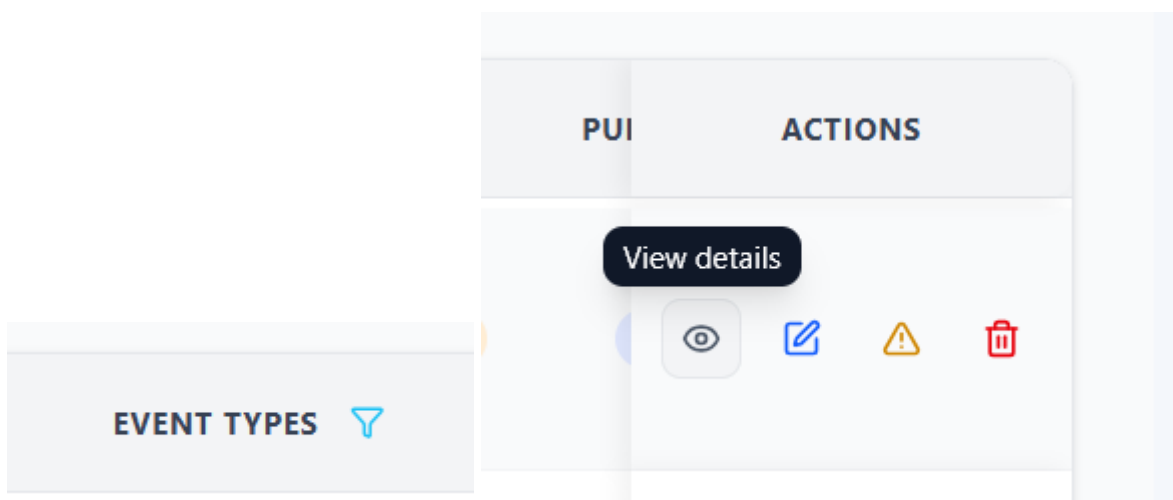

Bug: The hint of WYSIWYG text box remains in English after switching to Vietnamese

- Screens: A2
- Severity: Low
- Steps:
 - Go to the create event page.
 - Set the language as English and notice the hint of WYSIWYG text box.
 - Switch language to Vietnamese.
- Expected result: The hint gets translate to Vietnamese.
- Actual result: The hint remains as English.
- Screenshots:

Bug: The filter (funnel) icon next to the 'EVENT TYPES' header acts as an icon-only control but lacks a descriptive tooltip or text label on hover to indicate its filtering function

- Screens: A1
- Steps:
 - Go to event list page.
 - Hover the mouse over the filter (funnel) icon.
- Expected result: The filter icon has a tooltip like the 'View detail' icon.
- Actual result: The filter icon has no tooltip, nor a dedicated label (the label next to it is a column header, not its label)
- Severity: Low
- Screenshots:

Bug: Other icon controls of the rich text box show, except for the text style(p, h1, h2,...) icon, the color icon, the highlight icon, the alignment icon and the font size icon

- Screens: A2

- Steps:
 - Go to create event page.
 - Scroll down to the rich text box.
 - Hover the text style icon, the color icon, the highlight icon, the alignment icon and the font size icon
- Expected result: These icon show tooltips.
- Actual result: These icon do not show tooltips
- Severity: Low
- Screenshots:

Two screenshots of a 'Description' text editor interface. The top screenshot shows the editor with a toolbar containing icons for paragraph, bold, italic, underline, strikethrough, link, unlink, list, and table. The bottom screenshot shows the same editor but with the 'T 16px' font size dropdown highlighted in the toolbar.

Bug: 'Role Name' and 'Max Slots' are required but there are no indicators

- Screens: A2, A3
- Steps:
 - Go to create event page or edit event page.
 - Scroll down to the 'Registration' section.
 - Enable 'Allow Student Registration'.
- Expected result: 'Role Name' and 'Max Slots' fields of Student Roles panel have indicators that these fields are required.
- Actual result: There are no indicators. The validation error showed up after clicking submit button.
- Severity: Medium
- Screenshots:

Description

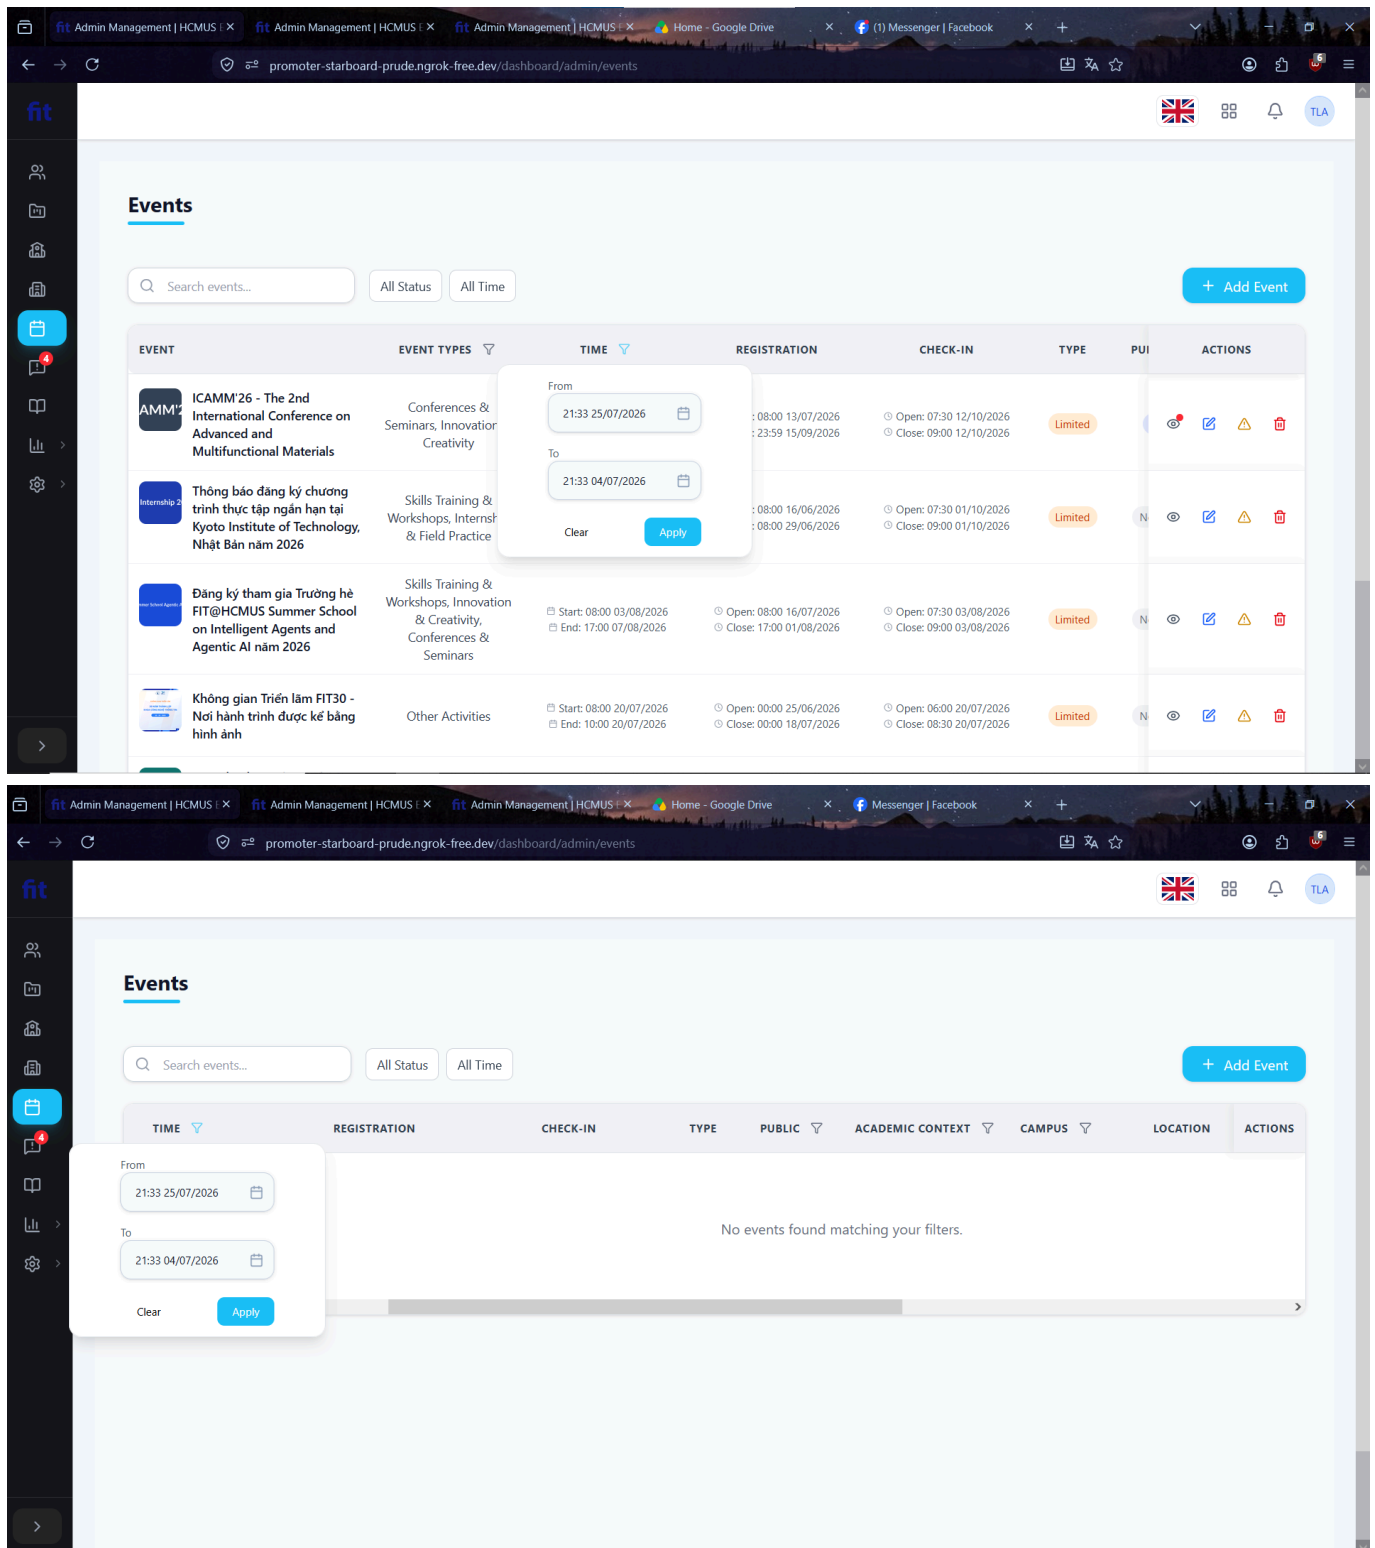

Description

Location & Organization

Location

Bug: The 'Time' filter allows an end date earlier than the start date and displays 'No events found matching your filters.' instead of showing an error or preventing the invalid selection.

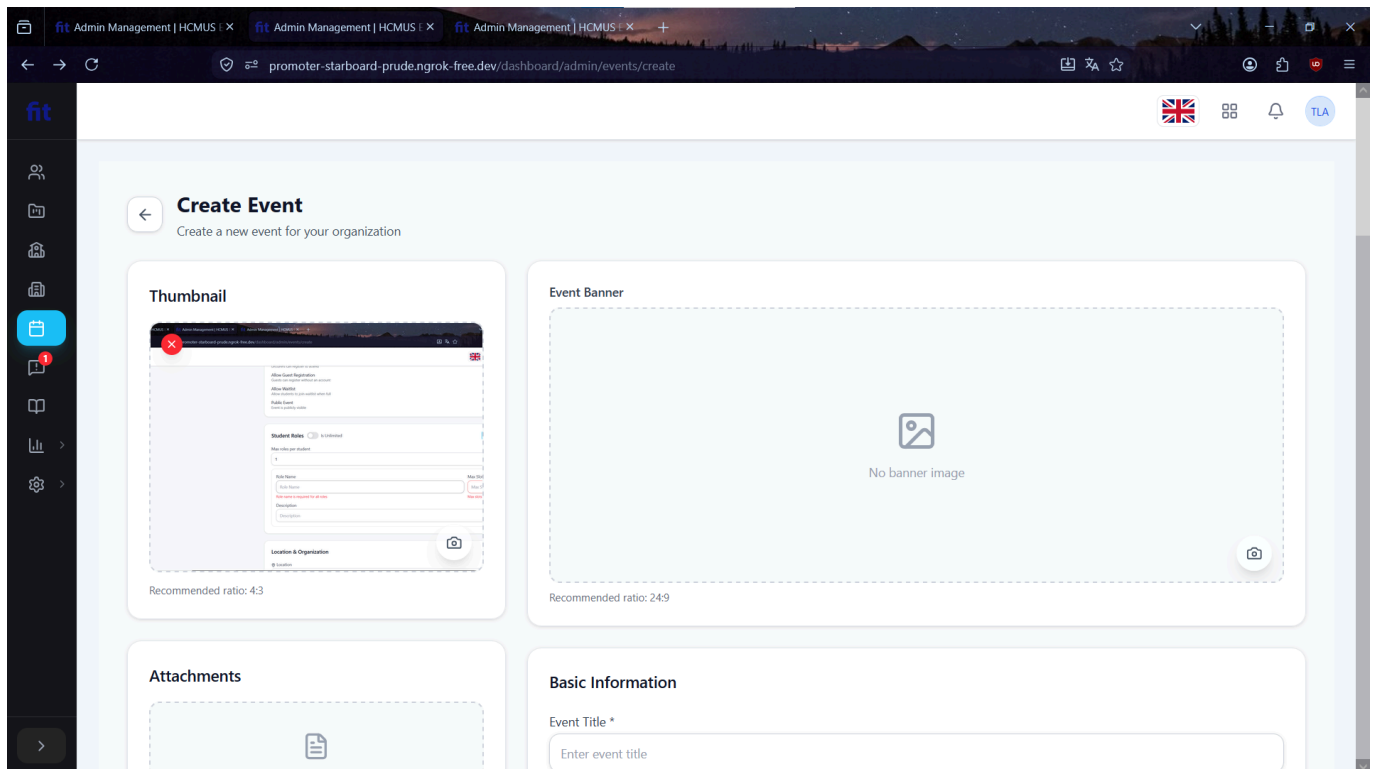

- Screens: A1
- Steps:
 - Go to event list page.
 - Open the 'Time' filter dropdown.
 - Set the end date to be earlier than the start date.
- Expected result: The system prevents selection or rejects the input with a clear validation error.
- Actual result: The selection is accepted, and the list displays "No events found matching your filters." without error.
- Severity: Medium
- Screenshots:

Bug: The form accepts image uploads that deviate from the recommended aspect ratios (4:3/24:9) without displaying any mismatch warning or error.

- Screens: A2
- Steps:
 - Go to create event page or edit event page.
 - Upload an image to the event thumbnail input field that does not match the recommended aspect ratio (4:3 / 24:9).
- Expected result: A warning is shown or the mismatched upload is rejected.
- Actual result: The image is uploaded successfully without any aspect ratio warning or error.

- Severity: Low
- Screenshots:

Bug: Navigating back to the event list screen resets all previously applied column filters or the rows-per-page pagination selection

- Screens: A2, A3
- Steps:
 - Go to event list page.
 - Apply 'Conferences & Seminars' for the 'EVENT TYPE' column filter.
 - Select '100' for 'Rows per page'
 - Go to create event page or edit event page.
 - Use the back button or sidebar menu to return to the event list.
- Expected result: Applied filters and pagination settings are preserved on return.
- Actual result: All applied column filters and pagination configurations are reset to default states.
- Severity: Medium
- Screenshots:

Bug: Filter icon controls do not have clear labels

- Screens: A1
- Steps:
 - Go to event list page.
 - Observe and hover the filter control for 'EVENT TYPE'.
- Expected result: Filter icon button contains a descriptive hover tooltipa or a visible label.
- Actual result: Only the raw filter icon is shown without any descriptive label or tooltip.
- Severity: Low
- Screenshots:

EVENT TYPES

Bug: If a user restores a draft and navigates away again without manually editing the text, the draft is permanently lost and the input field is empty upon return

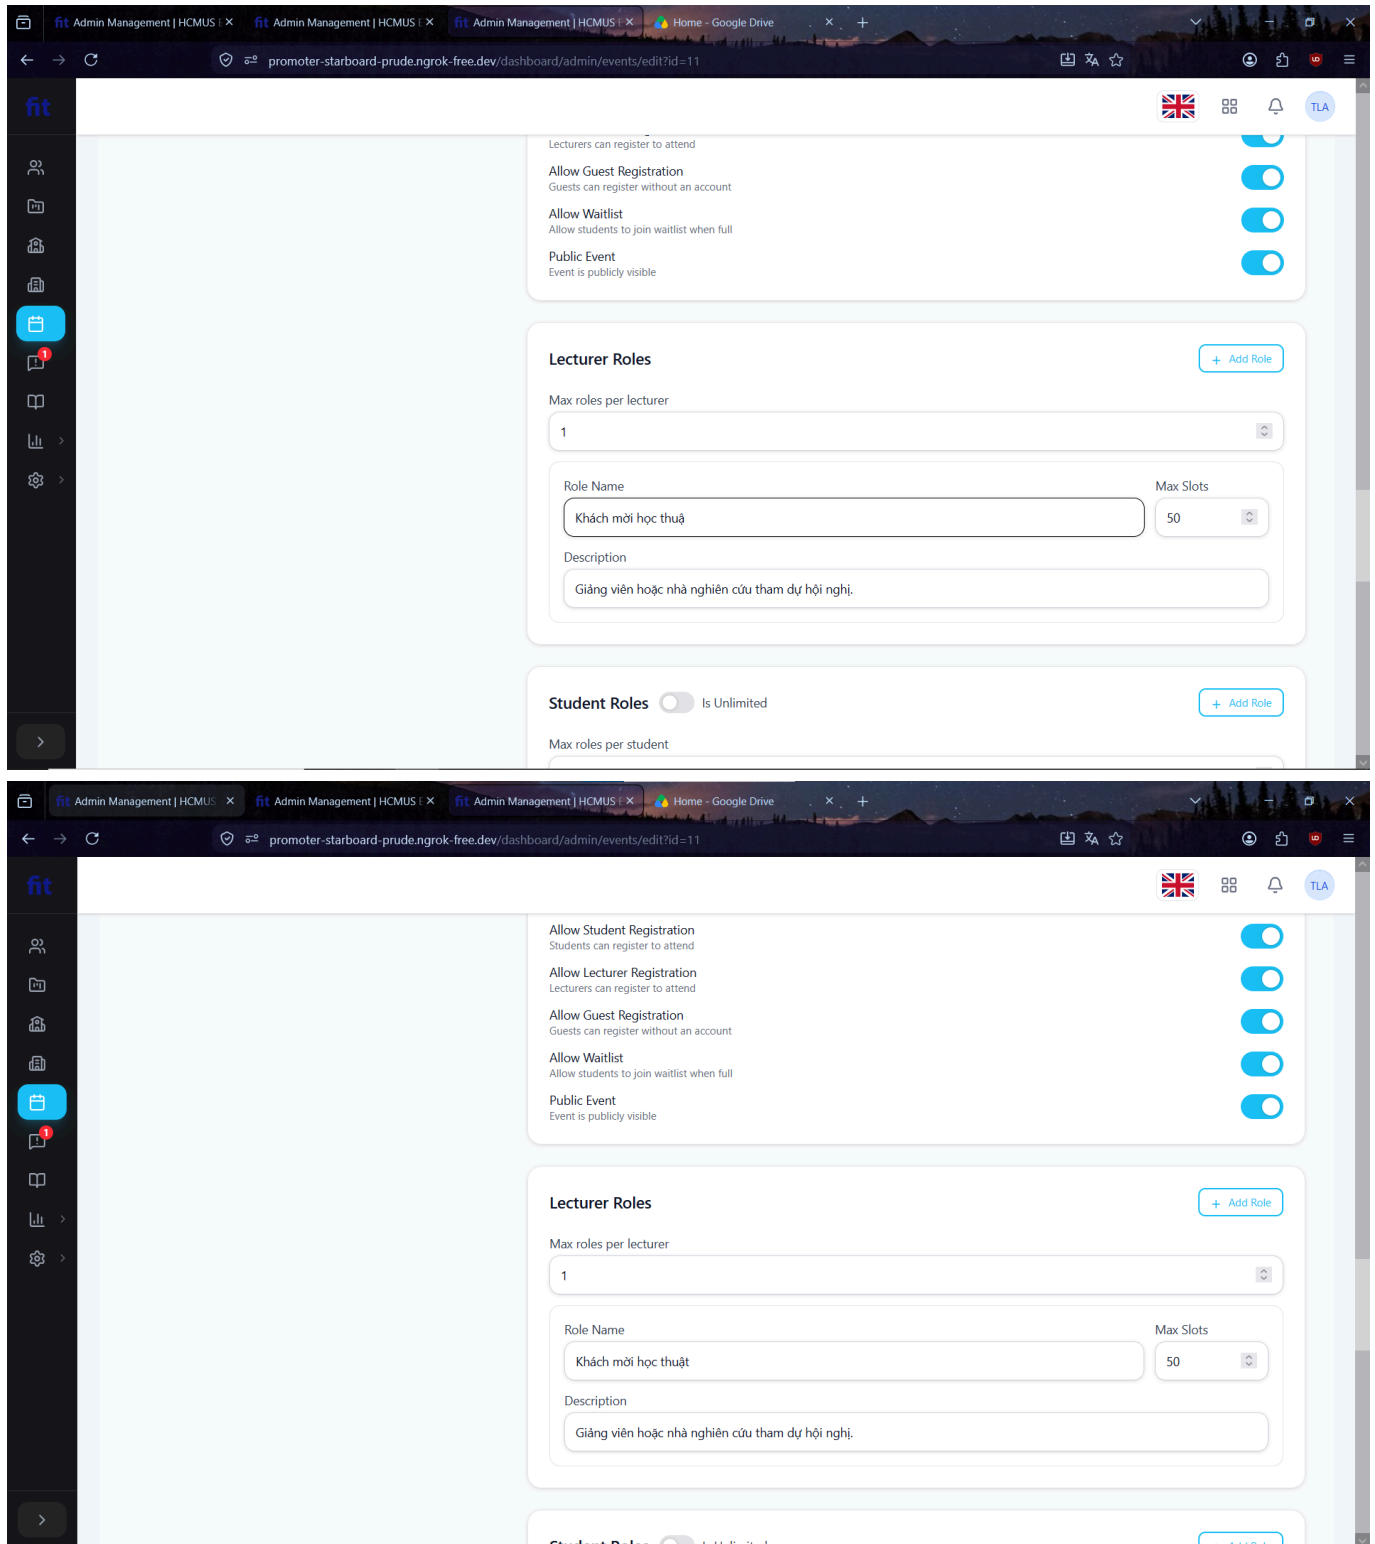

- Screens: A2
- Steps:
 - Go to the create event page and type 'Hello world' to the 'Event title' field.
 - Hit the back button.
 - Go to the create event page again.
 - Click on the "Restore" option in the unfinished draft dialog.
 - Hit the back button to navigate away without manually editing the 'Event title' field.
 - Go to the create event page again.
- Expected result: The restored draft content is preserved.
- Actual result: The draft is permanently cleared and the input field is empty.
- Severity: High
- Screenshots:

Bug: No discard prompt or draft-restore. Navigating away after making changes results in silent, permanent data loss

- Screens: A3
- Steps:
 - Go to create edit event page.
 - Scroll down to the Registration and modify role details.
 - Navigate away to another page using the sidebar or navigation menu without saving.
- Expected result: A confirm-discard dialog prompt warns the user of unsaved changes.
- Actual result: The system navigates away silently, resulting in permanent data loss.
- Severity: High

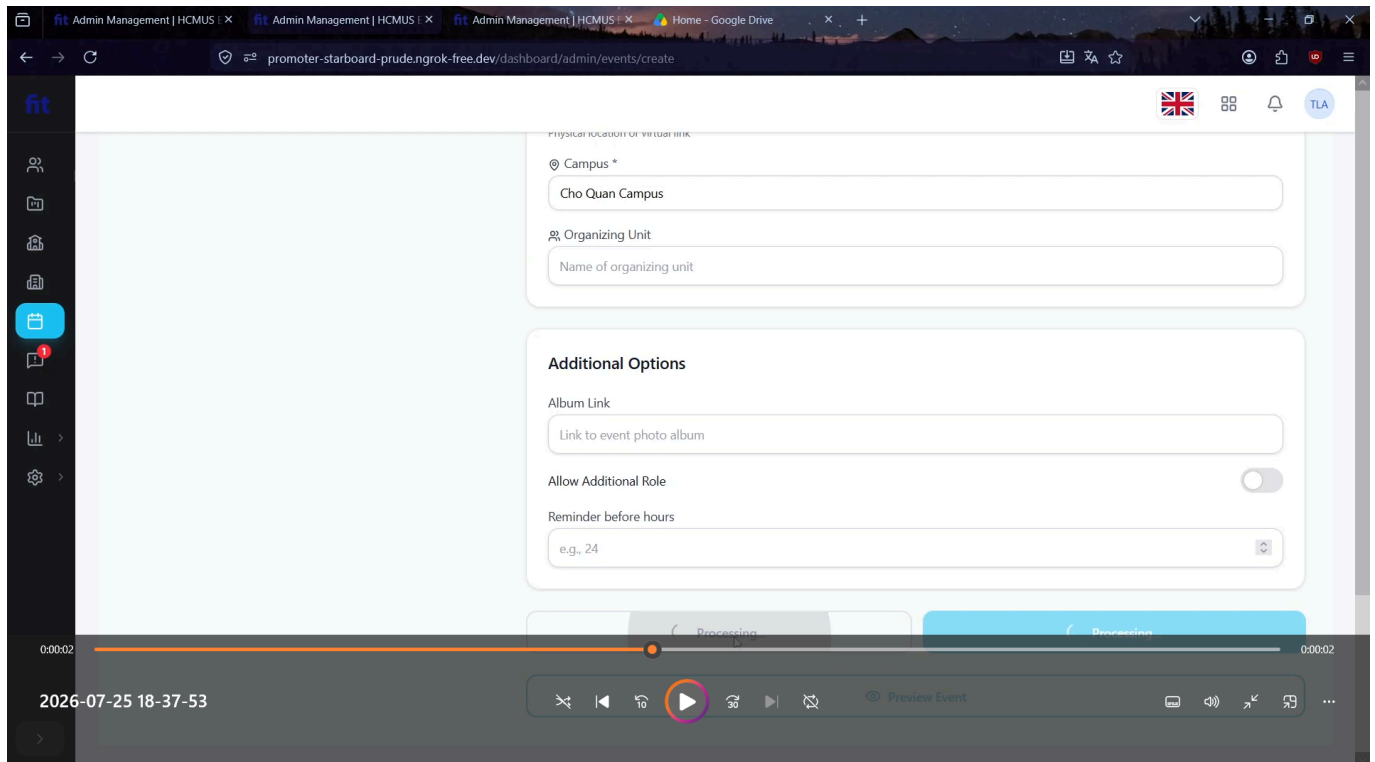

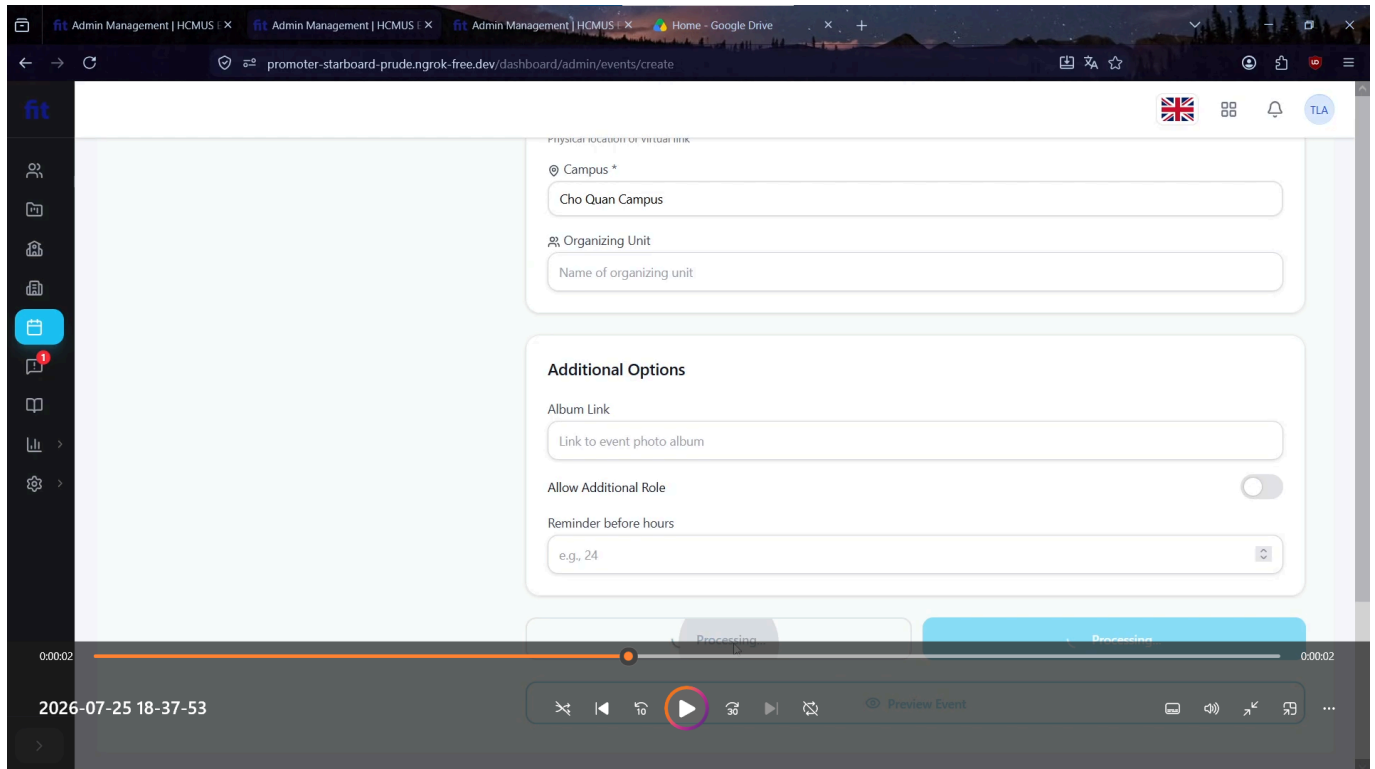

- Screenshots:

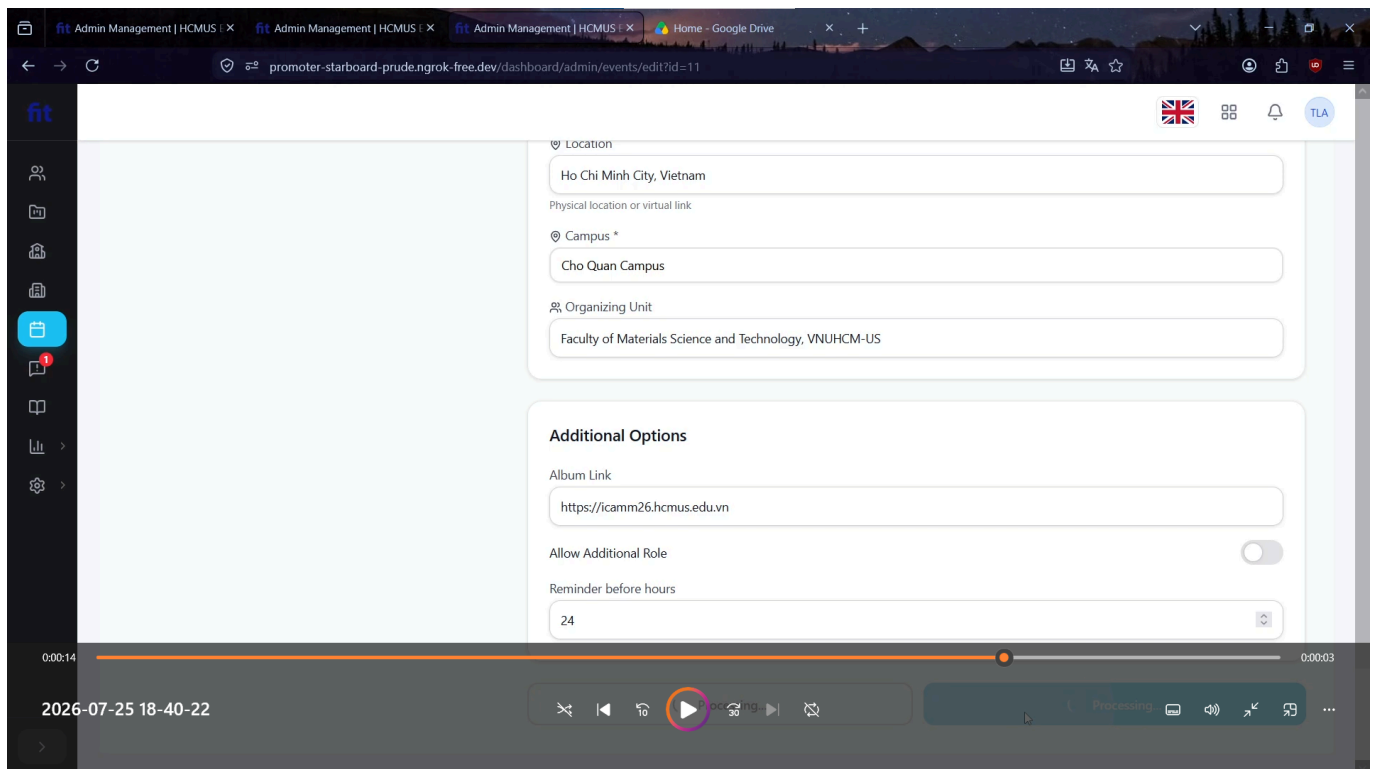

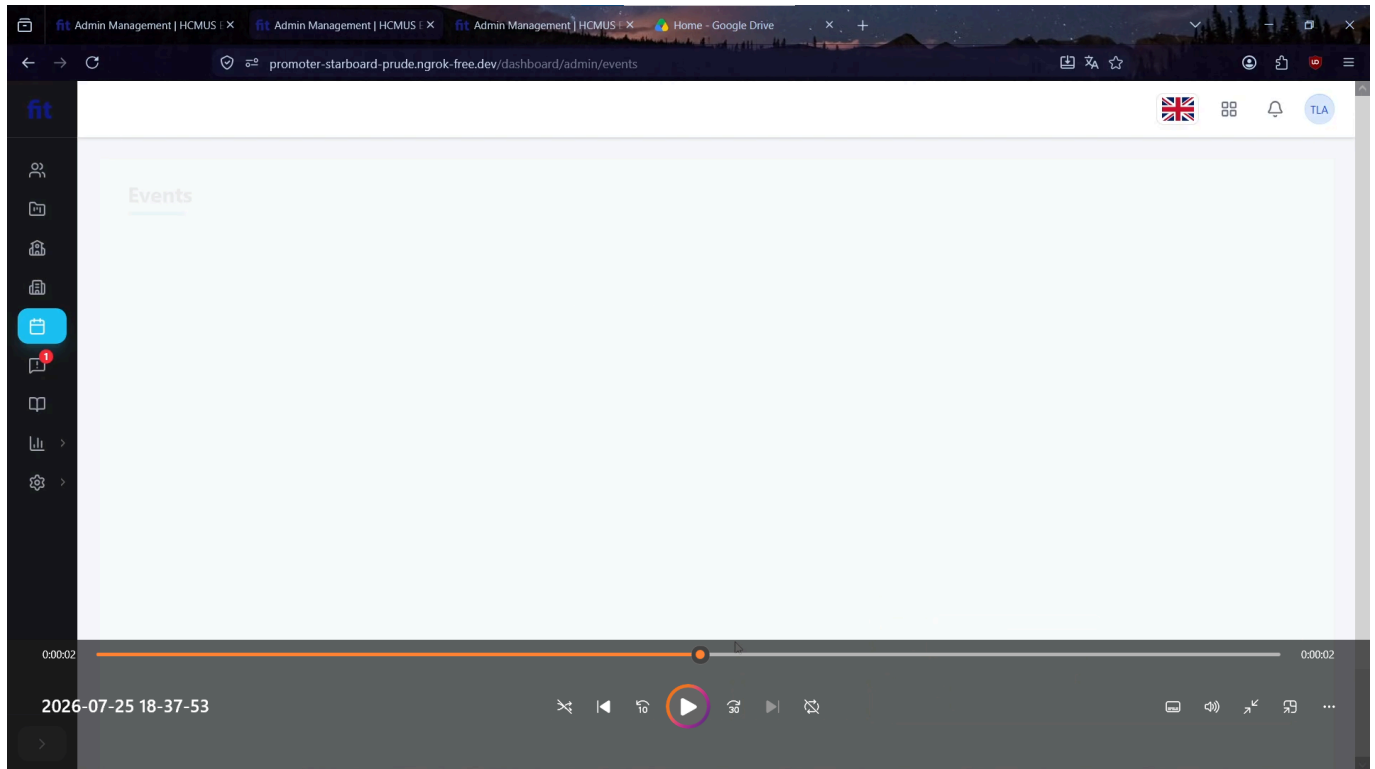

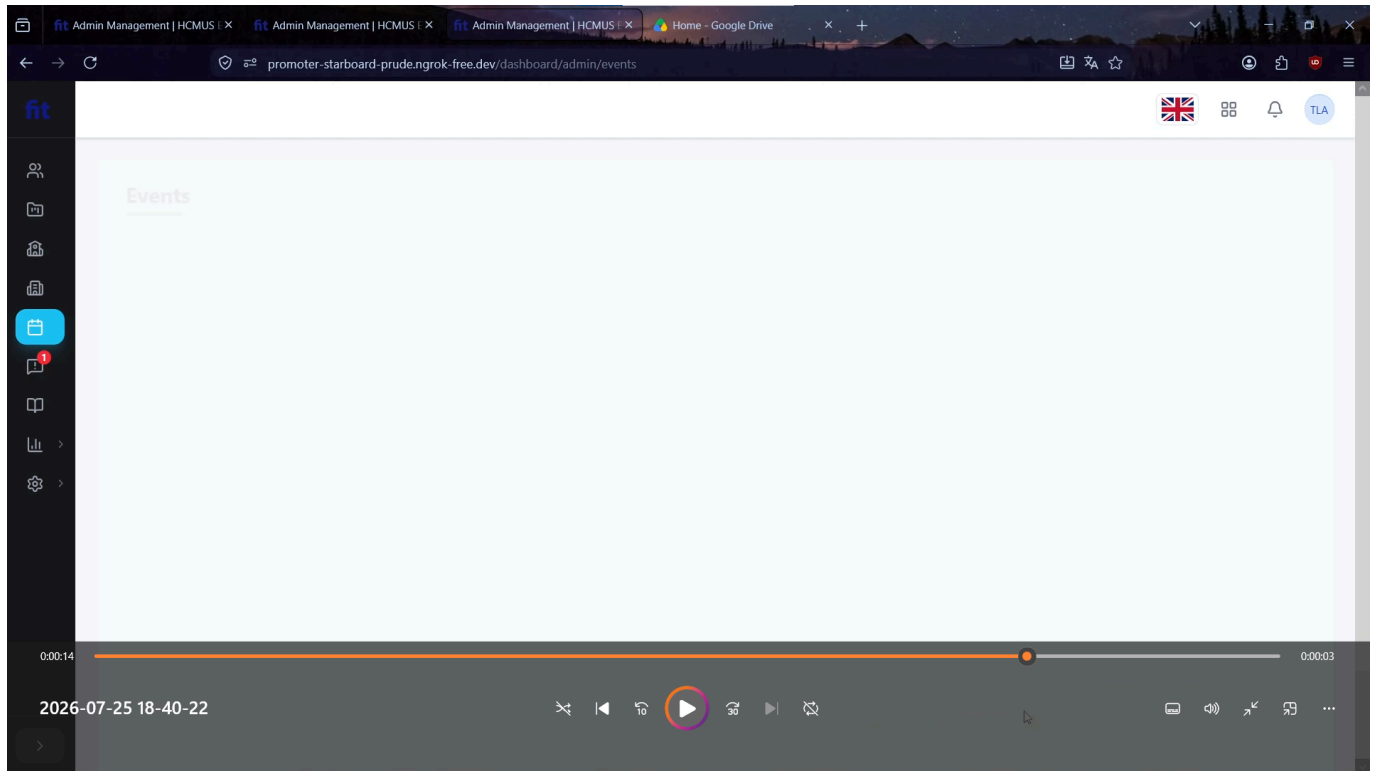

Bug: No notifications, navigate back to event list screen immediately after successful action

- Screens: A2, A3
- Steps:
 - Go to create event page or edit event page.
 - Modify some fields and click the save/submit button.
- Expected result: A success toast or message notification confirms the change has been saved.
- Actual result: The system navigates back to the event list screen immediately with no success indicator.
- Severity: Medium

- Screenshots:

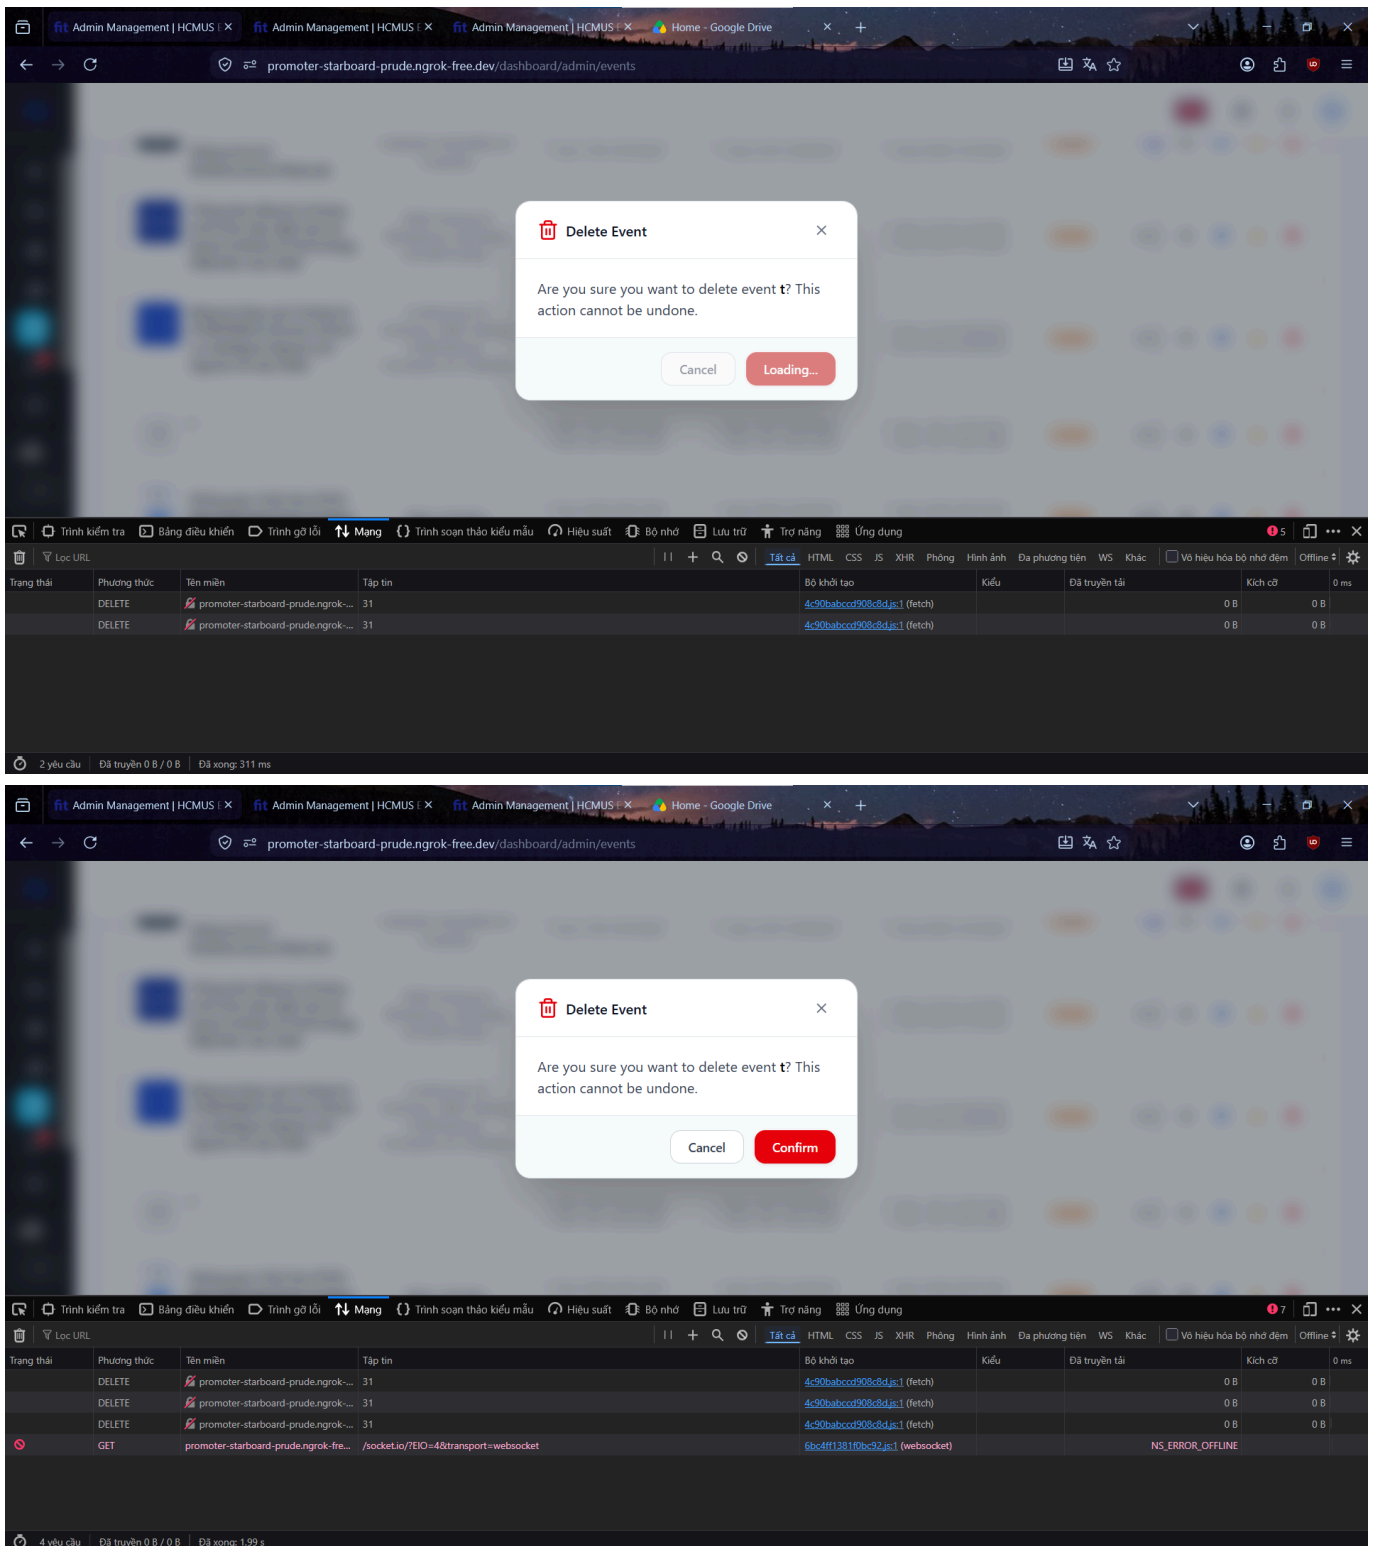

Bug: During connection loss, delete popup shows "Loading..." and reverts to "Confirm" after the request fails, but no error message or toast is displayed to the user

- Screens: A1
- Steps:
 - Go to event list page.
 - Trigger offline mode or simulate connection loss.
 - Click delete on an event.
 - Click the "Confirm" delete button in the confirmation modal.
- Expected result: An error message or toast states that the delete action failed due to connection loss.
- Actual result: The button changes to "Loading...", then reverts to "Confirm" after the request fails, without any error message or toast.
- Severity: Medium
- Screenshots:

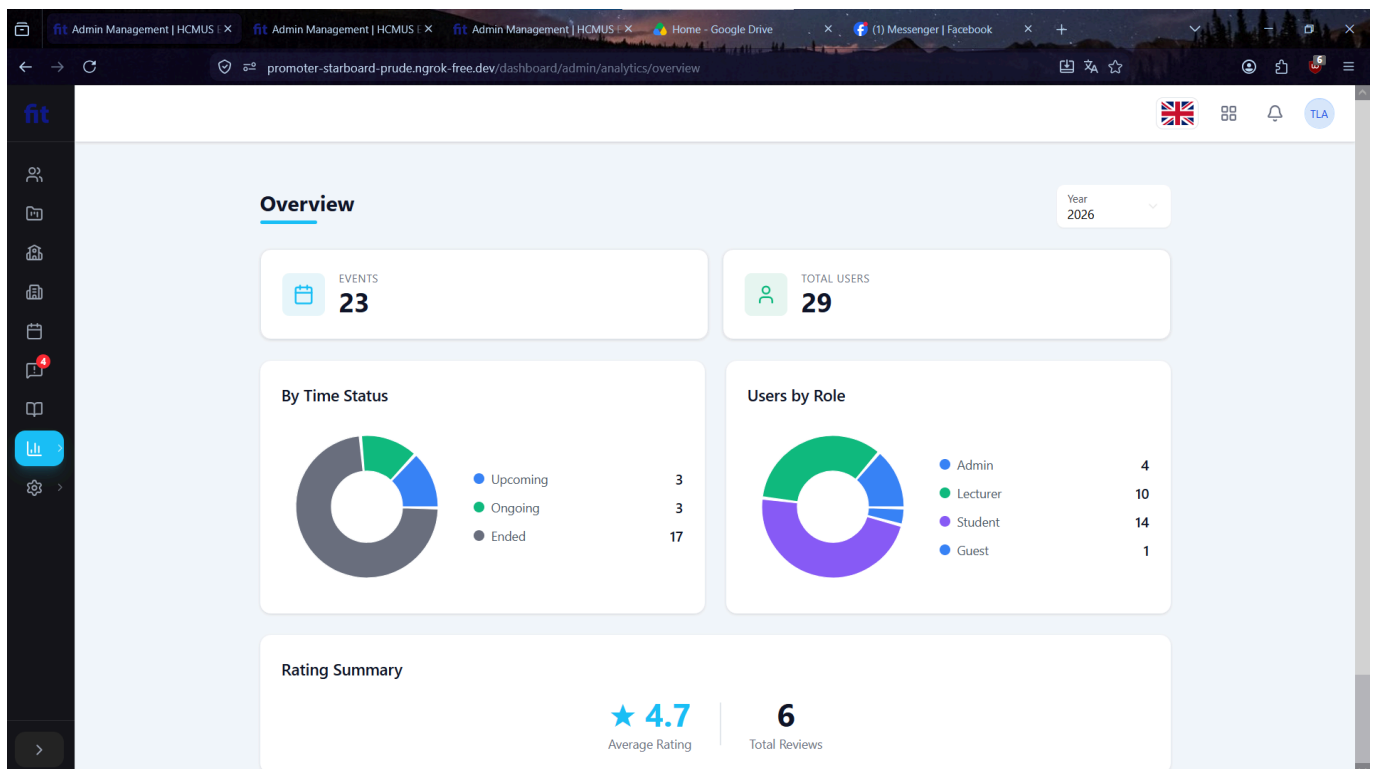

Bug: The 'Upcoming' status color is inconsistent. It is a blue segment on analytics overview screen, but displays as a purple badge on the event list.

- Screens: A1
- Steps:
 - Go to event list page.
 - Locate the 'Upcoming' status badge.
 - Go to analytics overview screen and observe the 'Upcoming' status segment on the pie chart.
- Expected result: Consistent color theme (same color coding) representing 'Upcoming' status across the app.

- Actual result: The status uses blue on the analytics screen but purple on the event list.
- Severity: Low
- Screenshots:

Bug: The labels for toggle options use bolder color than the labels for other controls, despite being in the same hierarchy

- Screens: A2, A3
- Steps:
 - Go to create event page or edit event page.
 - Compare the labels of toggle items (e.g., "Allow Student Registration") with normal field labels.

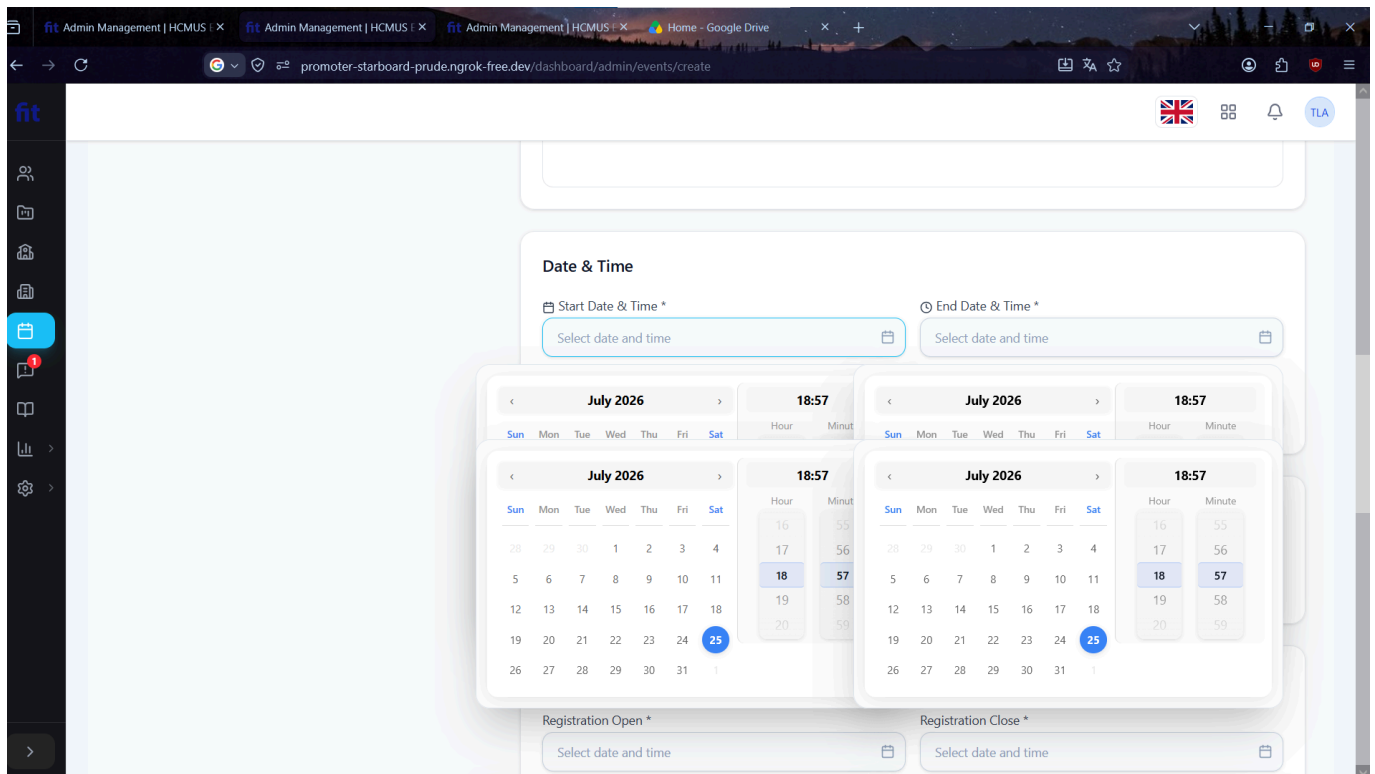

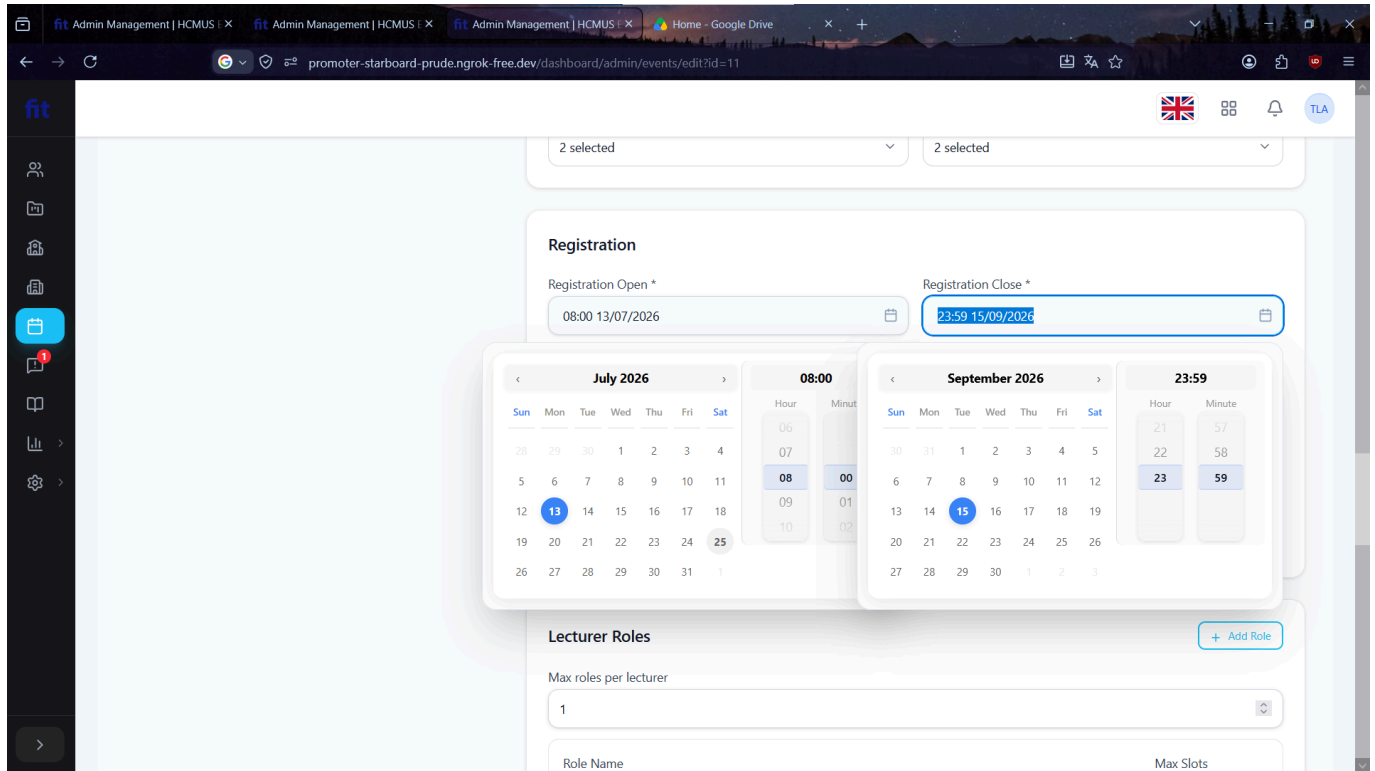

- Expected result: Labels at the same level of hierarchy have matching font weight and color.
- Actual result: Toggle labels are rendered in a bolder/darker color compared to other field labels.
- Severity: Low
- Screenshots:

Bug: When tabbing through fields with Tab key, date picker pop-ups do not close after losing focus. Multiple calendars remain open simultaneously, stacking on top of each other and blocking fields below.

- Screens: A2, A3
- Steps:

- Go to create event page or edit event page.
- Focus on a date input field using keyboard tab navigation.
- Tab to the next input field without selecting a date.
- Expected result: The calendar dropdown closes automatically once focus leaves the input field.
- Actual result: Calendars remain open, stacking on top of each other and covering active form elements.
- Severity: Medium
- Screenshots:

Task 3

Screen: (A1) Events list with status filters and notification dots

ID	OS	Browser	Device Class	Result	Notes
01	Windows	Chrome	Desktop	Passed	
02	Windows	Firefox	Desktop	Passed	
03	Windows	Edge	Desktop	Passed	
04	Windows	Opera	Desktop	Passed
